 Edition 21

# CABLE ACCESSORIES

## ■ EDITORIAL

Whether connecting, fastening or protecting – only with a screened connection equipment cables will fulfil its function reliable and especially permanent. For this reason we are offering the appropriate accessories for our cables and wires. Now the time has come: The new catalogue is hot off the press. The new "Cable accessories Edition 21" catalogue has not just been given a new facelift - also the content was revised. We expanded the catalogue with some more products: The new cable gland HELUTOP-HT-AIR-PA prevents the formation of condensation, for instance in switching cabinets being exposed to changing temperatures (see p. 185). The HELUTOP HT-Clean, a cable gland with blank surface used in the hygiene sector has very good cleaning properties and is also available as EMC version (see p. 176). All accessories in our product range comply with the latest guidelines and standards. Furthermore, you will find a completely revised cable lug program (from p. 379). All accessories are available from stock in our fully automated small parts warehouse with more than 36,000 bin locations – guided by the motto „Everything from a single source“.

Helmut Luksch,  
CEO of HELUKABEL® GmbH

# ■ HELUKABEL® AT A GLANCE

## SOLID

- Family enterprise since 1978

## QUALITY-MINDED AND ECOLOGY-MINDED

- ISO 9001 & 14001 & 50001
- Energy supplied by the firm's own solar and bio-gas plant

## HIDDEN CHAMPION

- 476 million Euro turnover
- 1200 employees

## GLOBAL

- 48 locations in 29 countries

## PRODUCTION

- 6 Manufacturing and assembly locations worldwide

## LOGISTICS

- 33,000 products in stock, from the cable gland to the 2.40 m cable drum
- 24 h delivery service
- State-of-the-art logistics concept

## PRODUCTS

Cables, wires, and cable accessories - a single source for industry and infrastructure

## ■ RESEARCH & DEVELOPMENT

We develop optimal, customized cable solutions for our customers.

Torsion test

### Our test facilities:

- Test systems for bending and torsion requirements
- Drag chain test systems with movement distances from 1 m, 3 m, 5 m, 6 m, 18 m, and 40 m
- Fire testing systems
- Abrasion testing systems
- Torsion test tower for wind turbines
- Aging ovens in accordance with UL, VDE, CSA, HAR, TÜV, CCC

Research and development are the foundation of our work and are an important engine for growth. In interdisciplinary teams we continuously develop our products and seek to enhance them for multiple applications. Moreover, we rely on customer feedback as well as cooperation with regional colleges and research institutes.

The materials that will be used are an important starting point of our work. In this regard, we place as much emphasis on searching for and utilizing new materials as we do on manufacturing our plastic mixtures (granulates) ourselves, in order to enhance mechanical properties, such as oil resistance, temperature range or chemical compatibility. Furthermore, we are capable of pulling a majority of our copper ourselves, and thus ensure a uniform, high quality relative to properties and workmanship.

By continuously optimizing our manufacturing processes and procedures, we have become more efficient and economical, and yet we are still able to take the complex requirements of a wide variety of applications (such as cables for industrial robots or for applications under clean-room conditions) into account.

A crucial stage in the development process of our products is the work done in our Test Centre. For example, cables suitable for drag chain implementation can be tested with acceleration up to 10 G. Temperature ranges from  $-50^{\circ}\text{C}$  to  $+250^{\circ}\text{C}$  are simulated in a special climate device so that drag chain cables can be tested for series production readiness before they are installed in applications like refrigerated warehouses or steel mills.

Drag chain test system

## ■ PRODUCTION

We specialize in the production of high-quality cables and wires.

In our two German plants, using the latest production methods, each year we manufacture approximately one million conductor kilometers (= 25 times around the world). More than 300 qualified employees are specialized in the production of high-quality standard and specialty cables. Through use of the latest materials and collaboration with international test institutes, we drive innovation in the areas of automation, data technology, building system technology, and renewable energy.

Since 2014, in a 7,000 m<sup>2</sup> facility in the Chinese city of Taicang (approx. 50 km northwest of Shanghai) HELUKABEL® has been producing cable and wires, primarily for the Asian region. As in the German plants, the focus here is also on high-quality, flexible and highly flexible cables and wires that are manufactured in accordance with Chinese and international standards. The use of flexible manufacturing cells enable short delivery times.

Braiding machine

Stranding machine

### Our production in numbers:

- 40 000 m<sup>2</sup> production area
- 23 extruder systems
- 19 stranding machines
- 50 braiding machines
- Cables & wires from 0.05 to 1000 mm<sup>2</sup>
- Manufacturing in accordance with: VDE, EAC (GOST-R), UL, CSA, HAR, CCC, Germanischer Lloyd, TÜV or customer specification

## ■ LOGISTICS

### Cable industry logistics redefined.

#### INDUSTRIAL CABLE

##### Our logistics center – Hemmingen/Stuttgart

- 40,500 Euro-pallet racks with max. reel weight of 1,500 kg; 16 aisles with 16 storage and retrieval devices
- 36,800 bin locations in the automatic small parts warehouse with a capacity of 1,000 bins per hour
- 670 storage spaces in the heavy load warehouse with max. reel weight of 4,000 kg and 2.20 m diameter
- 2 km conveyor line for pallets
- Conveyor connects direct to the cable-cutting machines
- Manual processes reduced to merely packing

#### INFRASTRUCTURE CABLES

##### Our logistics center – Neuenhagen/Berlin

- 11,000 cable reels in stock
- Automatic processing of reels up to 2.80 m diameter and 10 t
- 10 rewinding machines
- Cut to length with state-of-the-art 1,200 mm<sup>2</sup> cutting tools
- 24-hr delivery is possible

At its corporate headquarters in the Swabian town of Hemmingen, HELUKABEL® operates Europe's largest distribution centre for cables and wires. This is where a majority of the more than 33,000 products are housed in a 160,000 m<sup>2</sup> storage area. Through the use of state-of-the-art conveyor and control technology, more than 1,000 orders can be picked and shipped daily to destinations around the world.

Heavy-load length-cutting facility

Neuenhagen/Berlin is the central warehouse location for underground cable, medium-voltage cable, and other infrastructure cables. Storage capacities of more than 5,000 m<sup>2</sup> in the warehouse and 50,000 m<sup>2</sup> outdoors enable fast deliveries of cable, configured from 1 – 30 kV, to construction sites and major projects. The patented heavy load length-cutting machines with more than 10 tons of load capacity are the largest of their type in Germany.

The new logistics centre at the Taicang (China) production facility serves as a product distribution hub for the Asian region, and offers incredible advantages, particularly for servicing time-critical and volume-critical major projects.

Small parts warehouse

## ■ OUR VALUES

### Success through quality and innovation

HELUKABEL® GmbH is an independent company that develops, manufactures and sells cables, wires and accessories. In an environment of increasing expectations from both customers and society, the growth strategy of HELUKABEL® GmbH is based on consistent target orientation, high adaptability and continuous development of its management system. Our goal is to achieve sustainable business success through the confidence and satisfaction of our customers and society. As a result, HELUKABEL® GmbH places great emphasis on

the quality and environmental impact of its processes and products, the efficient use of resources and energy, and on satisfying legal and regulatory requirements. This is why HELUKABEL® GmbH developed and implemented an integrated management system for quality, environmental impact and energy performance based on the DIN EN ISO 9001, DIN EN ISO 14001 and DIN EN ISO 50001 standards. Our high standards are reflected in the following criteria:

The integrated management system for quality, environmental impact and energy performance reinforces HELUKABEL®'s success as a company and documents our work processes, which all employees and managers are bound to implement in accordance with what is prescribed in the management handbook.

## ■ OUR BRANDED PRODUCTS

### Cables & Wires

- BIOFLEX-500® bio-oil resistant cables
- CLEANFLEX® cleanroom data and control cables
- DATAFLAMM® data and computer cables, halogen-free
- DATAPUR-C® data and computer cables
- GALVANICABLE® high-voltage cathode cable
- HELUFLON® heat-resistant cables
- HELUTHERM® heat-resistant cables
- HELUTRAIN® train cables
- HELUTRUCK® vehicle cables / truck cables
- HELUWIND® wind power cables
- KOMPOFLEX® microbe-resistant cables
- KOMPOSPEED® bio-oil resistant drag chain cables
- LIFT-TRAGO® elevator control cables
- MEGAFLEX® flexible control cables, halogen-free (UL/CSA)
- MULTIFLEX 512® drag chain cables PUR
- MULTISPEED® drag chain cables
- NANOFLEX® PUR special control and data cables
- ROBOFLEX® robot cables
- SENSORFLEX® sensor cables
- SHIPFLEX® drag chain cables
- SOLARFLEX® photovoltaic cables
- SUPER-PAAR-TRONIC-C-PUR® drag chain cables, halogen-free
- SUPERTRONIC® drag chain cables
- THERMFLEX® heat-resistant cables
- TOPFLEX® servo, encoder, and motor cables
- TOPSERV® servo, encoder, and motor cables
- TRAYCONTROL® exposed run cable
- TROMMPUR® easy-to-wind cables
- UNIPUR® PUR, flexible control cables

### Cable accessories

- HELUCHAIN® drag chain product line
- HELUTEK® industrial connector series
- HELUTOP® cable gland product line

### Data, network & bus technology

- HELUCOM® fiber optic cables
- HELUKAT® fiber optic connection technology
- HELUKAT® copper data cable
- HELUKAT® copper connection technology

### Media technology

- HELUEVENT® high-power cable for TV studios
- HELULIGHT® cables for lighting control systems
- HELUSOUND® audio cable

## ■ ROBOTEC SYSTEMS - COMPETENCE IN EVERYTHING RELATED TO THE ROBOT

Since its founding in 1998, Robotec Systems GmbH headquartered in Kamp-Lintfort, Germany has become one of the leading European companies for robot hose packages and the associated fastening systems as well as for special robot cables, cable assemblies, power screwdriver technology, controllers for measurement instrumentation, and media systems such as air hoses and water hoses. The company has been a 100% subsidiary of HELUKABEL® GmbH since July 2012. Robotec Systems develops tailored energy-supply systems that are pre-assembled

and ready to install. From the development of different solution concepts to prototyping, to final installation and onsite service, Robotec is a single source for all services.

Through the use of first-class components, as well as superstructures and material compositions tailored for the respective application the highest level of reliability and productivity is achieved.

Robotec's products are used in applications, such as spot welding, laser welding and inert gas welding, robot handling systems and tool changing systems.

### Our components:

- Fastening elements & accessories
- Pivot bearings
- Spring clamps
- Protector / impact protection
- Trumpet and accessories
- Precision pipes
- Self-fastening hoses and accessories
- Cable protection hose
- Attachment parts
- Primary cables
- Control cables
- Cables for bus systems
- Pre-assembled special cables

WICKELTECHNIK

## ■ KABELMAT WICKELTECHNIK GMBH

Kabelmat Wickeltechnik GmbH's history goes back to the 1960s and for a long time, the company has been among the market leaders for winding systems for the cable & wire industry and/or processing.

Customers include manufacturers, retailers, and processors of cables and wires, as well as cable assemblers, electricians, machine manufacturing companies, and many more.

The product range includes virtually all devices and machines for storing, winding, and cutting cables and wires, wire rope, tubes, hoses, and profiles.

Winding from drums and onto drums, as well as from drums to rings are among the tasks that are executed efficiently worldwide with the Kabelmat products.

We would be pleased to show you our products in our show-room. You are cordially invited to visit us at our facility.

## ■ PLASTIC CABLE GLANDS

### Cable gland

Cap nut and gland body are made of polyamide 6 (PA6) in the following colours

- light grey RAL 7035
- dark grey RAL 7001
- black RAL 9005

Polyamide 6 (PA6) is abrasion and impact resistant, and withstands hydrocarbons/fuels and cleaning agents. It is tried-and-tested material for cable glands in standard applications.

The moulded seal is made of chloroprene rubber (CR, Neoprene).

HELUTOP® HT and HSK cable glands are fitted with vibration protection for secure attachment in mobile applications.

### Lock nut

The lock nuts with or without collar are made of polyamide 6 (PA6).

### Accessories

Accessories suitable for use with the plastic cable glands:

- Lock nuts
- Adapters
- Extenders
- Reducers

Accessories suitable for use with all cable glands:

- Sealing plugs
- Multiple sealing inserts / lock bolts
- O-rings
- Connection thread gaskets
- Blind plates

## HELUTOP® HT

Plastic cable gland with vibration protection.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Polyamide PA 6  
Seal: Chloroprene-rubber (CR)

- phosphor-free
- silicone-free
- cadmium-free

### Properties

- Optimum strain relief through clamping lamella
- Easy to assemble
- Large clamping areas

### Note

Details on the individual tests appear in section "Technical Information".

### Technical data

Protection class: IP 68 - 5 bar / IP 69K

Temperature range: -20°C up to +100°C

Test standard: EN50262

# HELUTOP® HT-BS Cable gland

With dust protection

## HELUTOP® HT-BS

Plastic cable gland with vibration protection and pre-assembled dust protection.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Polyamide PA 6  
Seal: Chloroprene-rubber (CR)  
Dust protection: Foam rubber

- phosphor-free
- silicone-free
- cadmium-free

### Properties

- Optimum strain relief through clamping lamella
- Easy to assemble
- Large clamping areas

### Note

Details on the individual tests appear in section "Technical Information".  
The information of the protection classification applies only by use as cable gland, not as dust cap.

### Technical data

Protection class: IP 68 - 5 bar / IP 69K

Temperature range: -20°C up to +100°C

### Dimensions

- G Thread size
- GL Thread length
- SW Spanner size

# HELUTOP® HT-MFDE Multiple sealing inserts

## HELUTOP® HT-MFDE

NBR multiple sealing inserts which fits in the HELUTOP® HT gland bodies made of polyamide and brass.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

NBR

Colour: black

### Technical data

Temperature range: -20°C up to +100°C

### Note

Sealing inserts for size M16x1,5 are suitable for cable glands M16x1,5 with clamping range 5-10mm.

# HELUTOP® HT-K Cable gland

With anti-kink spirals

## HELUTOP® HT-K

Plastic cable gland with anti-kink spiral for mobile use.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology

### Material

Polyamide PA 6  
Seal: Chloroprene-rubber (CR)

- phosphor-free
- silicone-free
- cadmium-free

### Properties

- Optimum strain relief through clamping lamella
- Easy to assemble

### Note

Details on the individual tests appear in section "Technical Information".

### Technical data

Protection class: IP 68 - 5 bar / IP 69K

Temperature range: -20°C up to +100°C

### Dimensions

- G Thread size
- GL Thread length
- SW Spanner size

### Metric thread

## HSK-METRICA-P

The cable gland meets high standards in technology.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Polyamide  
Seal: NBR

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

### Properties

- Easy to assemble
- Completely water-tight
- Optimum strain relief
- Clamping areas with metric dimensions

### Note

For the intrinsically safe area type "i" cable glands in blue, RAL 5012, are used.

### Technical data

Protection class: IP 68 - 10 bar / IP 69K (within the specific clamping range with additional o-ring)

Temperature range: -40°C up to +100°C

### Dimensions

G Thread size  
GL Thread length  
SW Spanner size

### Metric thread

# HSK-L Cable gland

Long thread

## HSK-L

With long threaded connection

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

PA 6, V0 acc. to UL 94  
Seal: NBR

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

### Properties

- Easy to assemble
- Completely watertight
- Optimum strain relief
- Large clamping areas

### Note

For the intrinsically safe area, type "I" cable glands in blue, RAL 5012, are used.

### Technical data

Protection class: IP 68 - 10 bar / IP 69K (within the specific clamping range with additional o-ring)

Temperature range: -40°C up to +100°C

### Dimensions

G Thread size  
GL Thread length  
SW Spanner size

## UNI-DICHT-PA

Plastic sealing gland with colour-coded TPE inserts.

## Material

Polyamide PA6-3  
Seal: TPE

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

## Properties

- Extensive cable sealing
- Easy to assemble
- Large clamping areas

## Note

Black cable glands are available on request.  
UL- and CSA- approval for use with TPE-V inserts. TPE-V inserts on request.

## Technical data

Protection class: IP 68 - 10 bar

Temperature range: -20°C up to +100°C

## Dimensions

G Thread size  
GL Thread length  
SW Spanner size

# UNI-DICHT-MFD-PA Cable gland

With multiple sealing inserts

## UNI-DICHT-MFD-PA

Plastic sealing gland with multiple TPE sealing inserts.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Polyamide PA6-3  
Seal: TPE

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

### Properties

- Extensive cable sealing
- Easy to assemble

### Note

Protection class IP 68, if the bore diameter in the sealing insert area is equal to the cable diameter.

### Technical data

Protection class: IP 68

Temperature range: -20°C up to +100°C

### Dimensions

G Thread size  
GL Thread length  
SW Spanner size

### Metric thread

# UNI-DICHT-VK-PA Gland body

## UNI-DICHT-VK-PA

Gland body made of polyamide for fitting with TPE sealing inserts.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Polyamide PA6-3

### Note

The gland body M20x1,5 part no. 903941 is suitable for PG 11 inserts; part no. 90831 is suitable for PG 13,5 inserts.

### Technical data

Temperature range: -20°C up to +100°C

### Dimensions

G Thread size  
GL Thread length

# UNI-DICHT Sealing insert

Closed

## UNI-DICHT sealing insert closed

Closed TPE-V sealing inserts which fit in UNI DICHT gland bodies - plastic or brass.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

TPE-V

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

### Note

The UNI-DICHT sealing insert M20x1,5 (part no. 903944) can only be used with **UNI-DICHT-VK-PA** M20x1,5 (part no. 90831).  
The UNI-DICHT sealing insert M20x1,5 (part no. 903945) can only be used with **UNI-DICHT-VK-MS** M20x1,5 (part no. 904213).

# UNI-DICHT Sealing insert

Standard

## UNI-DICHT sealing insert standard

Colour coded TPE sealing insert for UNI DICHT gland bodies - polyamide or brass.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

TPE

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

### Note

The UNI-DICHT sealing inserts M20x1,5 (part no. 903961 up to 903965) can only be used with **UNI-DICHT-VK-PA** M20x1,5 (part no. 90831).

The UNI-DICHT sealing inserts M20x1,5 (part no. 903966 up to 903970) can only be used with **UNI-DICHT-VK-MS** M20x1,5 (part no. 904213).

The UNI-DICHT sealing insert PG21 (part no. 903981) can only be used with

**UNI-DICHT-VK-MS** PG21 (part no. 904226).

The UNI-DICHT sealing insert M32x1,5 (part no. 903981) can only be used with **UNI-DICHT-VK-MS** M32x1,5 (part no. 904216).

# UNI-DICHT MFDE Multiple sealing insert

## UNI-DICHT multiple sealing insert

Multiple TPE sealing insert which fit in UNI-DICHT gland bodies - polyamide or brass.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

TPE

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

### Note

The UNI-DICHT sealing inserts M20x1,5 (part no. 904004 up to 904010) can only be used with UNI-DICHT gland body made of polyamide M20x1,5 (part no. 90831).

The UNI-DICHT sealing inserts M20x1,5 (part no. 904011 up to 904017) can only be used with **UNI-DICHT-VK-MS** M20x1,5 (Art.-Nr. 904213), **UNI-DICHT-VK-PA** PG13,5 (part no. 96045) and **UNI-DICHT-VK-MS** PG13,5 (part no. 904223).

# UNI-DICHT-ASI-PA Cable gland

Profile fits to ASI-bus cable

## UNI-DICHT-ASI-PA

Plastic sealing gland with inserts for ASI BUS cables.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Installation technology
- Control cabinet construction

### Material

Polyamide  
Seal: TPE-V

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

### Properties

- Large-areas cable sealing
- Easy to assemble

### Technical data

Protection class: IP 68 - 10 bar

Temperature range: -20°C up to +100°C

### Dimensions

- G Thread size
- GL Thread length
- SW Spanner size

### Metric thread

# UNI-DICHT Sealing insert

Profile fits to ASI-bus cable

## UNI-DICHT Sealing insert ASI

TPE sealing insert for fitting in UNI DICHT gland bodies - plastic or brass. Profile fits into ASI bus cable.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Installation technology
- Control cabinet construction

## Material

TPE-V

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

## Properties

- Large-area cable sealing
- Easy to assemble

## Note

The UNI-DICHT sealing inserts ASI (part nos. 905910 and 905911) can be used with **UNI-DICHT-VK-PA** M20x1,5 (part no. 90831).  
The UNI-DICHT sealing inserts ASI (part nos. 903992 and 903993) can be used with **UNI-DICHT-VK-MS** M20x1,5 (part no. 904213) and **UNI-DICHT-VK-PA/MS** PG13,5 (part no. 96045 and 904223).

# RE-PA Reducer

## RE-PA

Reducer made of polyamide.  
Transition from large to small thread.

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material

Polyamide

Colour: light grey  
RAL: 7035

- halogen-free
- phosphor-free
- silicone-free

## Note

Black on request.

## Technical data

Temperature range: -30°C up to +100°C

## Dimensions

G Thread size outside  
IG Thread size inside

# KMK-PA-MB Counternut with collar

## KMK-PA-MB

Counternut made of polyamide. The counternut with collar has a bigger sealing area - sealing with an additional O-ring will be simplified.

## Application

- Plant and machine construction
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

## Material

Polyamide PA 6

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

## Technical data

Temperature range: -40°C up to +100°C

## Dimensions

# BL-H Blind plug

Hard

## Blind plug BL-H

Blind plates as dust cap for HSK cable glands.

## Material

Hard PVC

## Technical data

Temperature range: -20°C up to +70°C

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Dimensions

D Outer diameter

## BL-H hard

# Incision sealing ring

## Incision sealing ring

Incision sealing rings for universal cable inlet due to large cable clamping areas.

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material

Chloroprene-rubber (CR)

Colour: black

## Note

Incision sealing rings for PG thread:

Material: NR

Temperature range: -40°C up to 90°C

## Technical data

Temperature range: -30°C up to +120°C

## Dimensions

- D Outer diameter
- d Inner diameter
- h Thickness

HELUTOP HT HSK-PVDF

**HELUTOP MS-EP4**

KVA-XXL-MS

HELUTOP HT-Clean

## ■ BRASS CABLE GLANDS

### Cable gland

Cap nut and gland body are made from nickel-plated brass. These glands are used for standard applications where metal glands are needed.

The terminal insert is made from polyamide 6 (PA6).

The moulded seal is made from chloroprene rubber (CR, Neoprene).

The O-ring is made from nitrile rubber (NBR, Buna-N).

### Lock nut

The lock nuts are made from nickel-plated brass.

### Accessories

Accessories suitable for use with the brass cable glands:

- Lock nuts
- Adapters
- Extenders
- Reducers

Accessories suitable for use with all cable glands:

- Sealing plugs
- Multiple sealing inserts / lock bolts
- O-rings
- Connection thread gaskets
- Blind plates

## HELUTOP® HT-MS

Nickel-coated brass cable gland.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Brass, nickel plated  
Clamp: Polyamide PA 6  
Seal: Chloroprene-rubber (CR)  
O-ring: NBR

### Properties

- Optimum strain relief due to clamping plates
- Easy to assemble
- Large clamping areas

### Note

Details on the individual tests appear in section "Technical Information".

### Technical data

Protection class: IP 68 - 5 bar / IP 69K

Temperature range: -20°C up to +100°C  
Temperature range temporary: -40°C up to +150°C

Test standard: EN50262

# HELUTOP® sealing inserts, multiple sealing inserts, sealing billets

## Sealing plug

For not assigned penetrations.

refer to page 33

## UNI-DICHT sealing insert closed

Closed TPE-V sealing inserts which fit in UNI DICHT gland bodies - plastic or brass.

refer to page 48

## HELUTOP® HT-MFDE

NBR multiple sealing inserts which fits in the HELUTOP® HT gland bodies made of polyamide and brass.

refer to page 32

## HSK-MS

Cable gland for high performance applications.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Brass, nickel plated  
Clamp: Polyamide  
Seal: NBR  
O-ring: NBR

### Properties

- Easy to assemble
- Completely watertight
- Optimum strain relief
- Large Clamping areas

### Technical data

Protection class: IP 68 - 10 bar / IP 69K

Temperature range: -40°C up to +100°C

# HSK-MS-L Cable gland

Long thread

## HSK-MS-L

With long threaded connection

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Brass, nickel plated  
Clamp: Polyamide  
Seal: NBR  
O-ring: NBR

### Properties

- Easy to assemble
- Completely watertight
- Optimum strain relief
- Large Clamping areas

### Technical data

Protection class: IP 68 - 10 bar / IP 69K  
Temperature range: -40°C up to +100°C

### Dimensions

G Thread size  
GL Thread length  
SW Spanner size

# HSK-MS-B Cable gland

Anti-kink

## HSK-MS-B

With anti-kink spirals

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Brass, nickel plated  
 Clamp: Polyamide PA 6  
 Seal: NBR  
 O-ring: NBR  
 Kinking protection spring: Stainless steel  
 (1.4310)

### Properties

- Easy to assemble
- Completely watertight
- Optimum strain relief
- Large Clamping areas

### Technical data

Protection class: IP 68 - 10 bar / IP 69K  
 Temperature range: -40°C up to +100°C

# UNI-DICHT-MFD-MS Cable gland

With multiple sealing inserts

## UNI-DICHT-MFD-MS

Sealing cable gland made of brass with multiple sealing inserts made of TPE.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Brass, nickel plated  
Seal: TPE

### Properties

- Large-area cable seal
- Easy to assemble

### Note

Protection classification IP 68, provided that the bore diameter in the sealing insert area is equal to the cable diameter.

### Technical data

Protection class: IP 68

Temperature range: -40°C up to +130°C

### Dimensions

G Thread size  
GL Thread length  
SW Spanner size

### Metric thread

# UNI-DICHT-VK-MS Gland body

## UNI-DICHT-VK-MS

Gland body made of brass for fitting in TPE inserts.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Brass, nickel plated

### Note

Gland body M20x1.5 (part no. 904212) is populated by inserts PG11; part no. 904213 is used with inserts PG13.5.

Part No. 904215 and 904225 cap aperture 18mm.

Part No. 904216 and 904226 cap aperture 21mm.

### Technical data

Temperature range: up to +200°C

### Dimensions

G Thread size  
GL Thread length  
SW Spanner size

# UNI-DICHT sealing inserts

## UNI-DICHT sealing insert closed

Closed TPE-V sealing inserts which fit in UNI DICHT gland bodies - plastic or brass.

refer to page 48

## UNI-DICHT sealing insert standard

Colour coded TPE sealing insert for UNI DICHT gland bodies - polyamide or brass.

refer to page 49

## UNI-DICHT sealing insert silicone

Sealing inserts made of silicone for populating of UNI-DICHT gland bodies. For use in chemical industry and at high temperatures.

refer to page 148

## UNI-DICHT multiple sealing insert

Multiple TPE sealing insert for fitting in UNI DICHT gland bodies - polyamide or brass.

refer to page 52

## Sealing plug

For not assigned penetrations.

refer to page 33

# UNI-DICHT-ASI-MS Cable gland

Profile fits to ASI-bus line

## UNI-DICHT-ASI-MS

Sealing cable gland made of brass with inserts made of TPE-V, profile fits to ASI- bus line.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Installation technology
- Control cabinet construction

### Material

Brass, nickel plated  
Seal: TPE-V

### Properties

- Large-area cable sealing
- Easy to assemble

### Technical data

Protection class: IP 68 - 10 bar

Temperature range: -40°C up to +135°C

# KVA-MS Cable gland

## KVA-MS

Sealing cable gland made of brass with colour-coded Soft PVC inserts.

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material

Brass, nickel plated  
Seal: Soft PVC  
O-ring: NBR

## Properties

- Large-area cable sealing
- Easy to assemble
- Large clamping areas

## Technical data

Protection class: IP 68 - 10 bar

Temperature range: -20°C up to +105°C

# KVA-MFD-MS Cable gland

With multiple sealing inserts

## KVA-MFD-MS

Cable gland made of brass with multiple sealing inserts made of Soft PVC inserts.

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material

Brass, nickel plated  
Seal: Soft PVC  
O-ring: NBR

## Properties

- Large-area cable sealing
- Easy to assemble

## Note

Protection class IP 68, if the bore diameter in the sealing insert area is equal to the cable diameter.

## Technical data

Protection class: IP 68 - 10 bar

Temperature range: -20°C up to +105°C

## Dimensions

# KVA Sealing insert

## Standard

### KVA sealing insert standard

Colour coded sealing inserts made of Soft-PVC suitable for KVA gland bodies.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Soft PVC

### Note

\* The KVA sealing inserts M12x1,5 (part no. 90299) can be used only with KVA brass cable glands.

\* The KVA sealing inserts M12x1,5 (part no. 90291) can be used only with KVA polyamide cable glands.

# KVA MFDE Multiple sealing insert

## KVA multiple sealing insert

Multiple sealing inserts made of Soft-PVC for use with KVA gland bodies.

## Material

Soft PVC

## Technical data

Temperature range: -20°C up to +105°C

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

# KVA-ASI-MS Cable gland

To ASI-bus-cable

## KVA-ASI-MS

Sealing cable gland made of brass with Soft PVC inserts, profile fits to ASI-bus cable.

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Installation technology
- Control cabinet construction

## Material

Brass  
Seal: Soft PVC

## Properties

- Large-area cable sealing
- Easy to assemble

## Technical data

Protection class: IP 68 - 10 bar

Temperature range: -20°C up to +105°C

## Dimensions

# KVA-XXL-MS Cable gland

For particularly large cable diameters

## KVA-XXL-MS

Cable gland made of brass for very large cable diameters.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

### Material

Brass, nickel plated  
Seal: TPE-V  
O-ring: NBR

### Properties

- Large-area cable sealing
- Easy to assemble
- Large clamping range

### Technical data

Protection class: IP 68 - 10 bar

Temperature range: -40°C up to +135°C

# SD-XXL Cable gland

For particularly large cable diameters

## SD-XXL

Gas and watertight gland for very large cable diameters. The quality is similar to an incision sealing ring and guarantees extensive clamping ranges.

## Material

Brass, nickel plated  
Seal: NBR  
O-ring: NBR

## Properties

- Large-area cable sealing
- Easy to assemble
- Large clamping range

## Note

BSP-variant: Without O-ring at threaded connection. Sealing insert made of TPE.

## Technical data

Protection class: IP 68 - 10 bar

Temperature range: -40°C up to +100°C

## Dimensions

G Thread size  
GL Thread length  
SW Spanner size

## Metric thread

# ZES Cable gland

With strain relief and incision sealing ring

## ZES

Hexagonal brass strain relief gland with incision sealing ring.

## Material

Brass, nickel plated  
Seal: NBR  
Thrust rings: Galvanized steel

## Technical data

Protection class: IP 54  
Temperature range: -20°C up to +60°C

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Dimensions

G Thread size  
GL Thread length  
SW Spanner size

## Metric thread

# RE hexagonal Reducer

## RE hexagonal brass

Brass reducer. Transition from large to small thread.

## Material

Brass, nickel plated

## Technical data

Temperature range: up to +200°C

## Application

- Plant and machine construction
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology

## Abmessungen

- G Thread size outside
- IG Thread size inside
- GL Thread length
- SW Spanner size

## From metric to metric

## ■ CABLE GLANDS FOR ELECTROMAGNETIC COMPATIBILITY (EMC)

### Cable gland

The cable glands are used in high-quality EMC applications. The cable glands are used in high-quality EMC applications.

Cap nut and gland body are made from nickel-plated brass.

The contact springs form a safe and reliable contact with the screened braiding of the cable. They are made from copper beryllium, which ensures good conductivity and a strong, long-lasting spring force. The spring ring is movable prior to the cap nut being tightened, which prevents damage to the screened braiding during assembly.

The terminal insert is made from polyamide 6 (PA6).

The moulded seal is made from chloroprene rubber (CR, Neoprene).

The O-ring is made from nitrile rubber (NBR, Buna-N).

### Lock nut

The lock nuts are made from nickel-plated brass. They have cutting edges for cutting through coated surfaces.

### Accessories

Accessories suitable for use with the brass cable glands:

- Counternuts

Accessories suitable for use with all cable glands:

- Sealing plugs
- O-rings
- Connection thread gaskets
- Blind plates

A copper tape prevents an expansion of the braid.

## ■ ELECTROMAGNETIC COMPATIBILITY

The subject of electromagnetic compatibility covers everything connected with intentional and unintentional malfunctions in electrical operating materials caused by electrical, magnetic or electromagnetic fields and processes.

Technically, a distinction is made between "conducted" and "non-conducted" faults:

Conducted interference are transferred directly from the source of the fault to the sink via power or signal cables.

Radiative interference is coupled with the sink by means of an electromagnetic field, i.e. as electromagnetic radiation, and is received there by a wire functioning as an antenna.

Malfunctions should not occur.

In the European EMC Directive, electromagnetic compatibility is defined as follows: The ability of a device, unit of equipment or system to function satisfactorily in its electromagnetic environment without introducing intolerable electromagnetic disturbances to any device, unit of equipment or system in that environment.

The power companies and the EU legislator require that manufacturers of electrical devices adhere to appropriate "protection requirements".

The EMC Directive is generally applied in conjunction with the Low Voltage Directive. The EMC Directive is generally applied in conjunction with the Low Voltage Directive.

Important components to avoid malfunctions

Screened cables:

The screen over the inner sheath of the cable is designed to keep out external disturbances and keep in internally-generated disturbances.

Sheet shielding or

Screened braiding – a coverage of more than 85% is considered necessary.

## HELUTOP® MS-E

EMC cable gland with clamping fingers from spring steel for quick assembly and contacting.

## Material

Brass, nickel plated  
Contact system: Copper-Beryllium  
Clamp: Polyamide PA 6  
Seal: Chloroprene-rubber (CR)  
O-ring: NBR

## Technical data

Protection class: IP 68 - 5 bar

Temperature range: -40°C up to +100°C

## Note

Details on the individual tests appear in section "Technical Information".

## HELUTOP® MS-EP

EMC- and earthing gland with integrated contact system for safe and quick assembly as well as contacting.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Brass, nickel plated  
 Contact system: Copper-Beryllium  
 Clamp: Polyamide PA 6  
 Seal: Chloroprene-rubber (CR)  
 O-ring: NBR

### Properties

- Optimum strain relief through clamping plates
- No damage of shield during assembly or disassembly by moving contact ring
- Contact made automatically when the gland is closed
- Excellent shield damping and current deflection
- High savings achieved in time and assembly costs

### Note

Details on the individual tests appear in section "Technical Information".

### Technical data

Protection class: IP 68 - 5 bar  
 Temperature range: -40°C up to +100°C  
 Test standard: EN50262  
 Contact system: patented

## ■ ELECTROMAGNETIC COMPATIBILITY

### EMC glands

The screen of the cable is contacted with the housing of the control/motor via appropriate cable glands.

If the screen is applied at both ends, then one has the additional benefit of potential equalisation at both ends, and effective screening. Here it should be ensured that the two grounds are not different, otherwise a flow of disturbing equalising currents could occur.

The contact in the gland is generally created by means of a contact spring. This gives a good contact but also allows rapid assembly. Our HELUTOP® MS-EP 4 and HELUTOP® MS-EP have a simultaneously-rotating spring ring. Provided that the cable is not yet fixed, it is still possible to turn the cable in the gland. Only when it is fixed by turning the cap nut is the screen contact also finally fixed.

The particularly simple cable assembly and disassembly conditions, the gentle spring contact on the cable shield and the EMC shield's excellent resistance to vibrations are also outstanding characteristics that distinguish the new HELUTOP® MS-EP4.

Most important accessories: Lock nut with cutting edges.  
Painted, anodised or contaminated surfaces are cut through by the cutting edges and the contact between the cable gland and the housing is thereby securely made.

## HELUTOP® MS-EP4

EMC- cable gland with integrated contact system.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Brass, nickel plated  
 Contact system: Copper-Beryllium  
 Clamp: Polyamide PA 6  
 Seal: Chloroprene-rubber (CR)  
 O-ring: NBR

### Properties

- Easy installation
- Secure contact
- High vibration resistance

### Note

# Electricians scissors For screened cables and wires

## Electricians scissors

- Cuts copper braid shielded cables and wires
- Clean cut with serrated edge
- With round wire cutter
- Very stable version
- Cut from special stainless steel, nickel plated
- Handy
- Length 125 mm
- Weight 65 g

## Electricians scissors

## Copper tape

Stabilizes the braided ends of shielded cables and wires.

## Material

Rolled copper foil

## Properties

- Self-adhesive
- With protective cover for the adhesive
- Electrically conductive adhesive
- Adhesive strength 900g/inch (according to KS A 1107)
- Thickness approx 40µm
- Thickness incl. adhesive approx 70µm

HELUTOP HT

HSK-PVDF

HELUTOP MS-EP4

KVA-XXL-MS

HELUTOP HT-Clean

## ■ STAINLESS STEEL CABLE GLANDS

### Cable gland

Cap nut and gland body are made of stainless steel. Due to their high degree of corrosion resistance and longevity, these glands are suitable for tough conditions:

- Heavy chemical loads
- Cleaning agents (e.g. in the food industry)
- Weather-resistant when used outdoors.

The terminal insert is made from polyamide 6 (PA6).

The moulded seal is made from chloroprene rubber (CR, Neoprene).

The O-ring is made from nitrile rubber (NBR, Buna-N).

### Lock nut

The lock nuts are made from stainless steel.

### Accessories

Accessories suitable for use with the stainless steel cable glands:

- Lock nuts

Accessories suitable for use with all cable glands:

- Sealing plugs
- Multiple sealing inserts / lock bolts
- O-rings
- Connection thread gaskets
- Blind plates

# HELUTOP® HT-E Cable gland

Stainless steel

## HELUTOP® HT-E

Stainless steel cable gland for heavy load.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Stainless steel 1.4305 / AISI 303  
Clamp: Polyamide PA 6  
Seal: Chloroprene-rubber (CR)  
O-ring: NBR

### Properties

- Optimum strain relief through clamping plates
- Highly corrosion-resistant
- Highly durable
- Easy to assemble
- Large clamping areas

### Note

Details on the individual tests appear in section "Technical Information".

### Technical data

Protection class: IP 68 - 5 bar

Temperature range: -40°C up to +100°C

Test standard: EN50262

# HSK-PVDF Cable gland

Polyvinylidene fluoride

## HSK-PVDF

Polyvinylidene fluoride for use in the chemical industry, at high temperatures, under long-term UV exposure.  
The cable gland to meet stringent requirements in technology.

## Material

PVDF  
Clamp: PVDF  
Seal: FKM

- phosphor-free
- silicone-free
- cadmium-free

## Properties

- Easy to assemble
- Completely water-tight
- Optimum strain relief
- Large clamping areas

## Technical data

Protection class: IP 68 - 10 bar / IP 69K (within the specific clamping range with additional o-ring)

Temperature range: -35°C up to +150°C

Test standard: EN50262

# UNI-DICHT-VK-PVDF Body gland

Polyvinylidene fluoride

## UNI-DICHT-VK-PVDF

Gland body made of PVDF for populating with inserts made of TPE or silicone. For use in chemical industry, at high temperatures, or long lasting UV-stress.

### Application

- Chemical industry
- Food industry
- Plant and machine construction
- Automation technology
- Installation technology
- Control cabinet construction

### Material

PVDF

- phosphor-free
- cadmium-free

### Note

Use short-sized inserts when using gland bodies of size M12x1.5 or M20x1.5.

### Technical data

Temperature range: -40°C up to +150°C

### Dimensions

- G Thread size
- GL Thread length
- SW Spanner size

### Metric thread

Part no.	Size Metr.	Thread length mm	Spanner size mm	Unit	Net EUR/ 100 items at a purchase of

# UNI-DICHT Sealing insert

Standard, silicone

## UNI-DICHT sealing insert silicone

Sealing inserts made of silicone for populating of UNI-DICHT gland bodies. For use in chemical industry and at high temperatures.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material

Silicone

- halogen-free
- phosphor-free
- cadmium-free

## Note

Short-size inserts are used with gland bodies made of PVDF.  
Standard size inserts are used with gland bodies made of stainless steel.

## Technical data

Temperature range: -60°C up to +200°C

# HELUTOP® HT-PA-EX-Plus

Explosive area

## HELUTOP® HT-PA-EX-Plus

For use in explosive areas.

### Application

- Zone 1, Zone 2, Zone 21, Zone 22, IIA, IIB, IIC

### Material

Polyamide PA 6  
Seal: Chloroprene-rubber (CR)  
Flat seal: Chloroprene-rubber (CR)

- phosphor-free
- silicone-free
- cadmium-free

### Note

For intrinsically safe area type "i", in blue on request.

### Certificate of Conformity:

IMQ 13 ATEX 010 X  
IECEx IMQ 13.0003X

### Approval:

EX II 2GD  
Ex e IIC Gb/Ex tb IIIC Db IP 66/68

### Technical data

Protection class: IP 66 / IP 68  
Impact-resistant: 7 Joule

Temperature range: -40°C up to +70°C

Test standard: EN 60079-0:2012 / EN 60079-7:2007 / EN 60079-11:2012 / EN 60079-31:2014 / IEC 60079-0:2011 / IEC 60079-7:2006 / IEC 60079-11:2011 / IEC 60079-31:2013

## HSK-EX

For use in explosive areas

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

PA 6, V0 acc. to UL 94  
Seal: NBR  
O-ring: NBR

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

### Properties

- Easy to assemble
- Completely water-tight
- Optimum strain relief
- Large clamping areas

### Note

Certificate of Conformity:  
EExell DMT 02 ATEX E 047 X

### Technical data

Protection class: IP 68 - 10 bar / IP 69K

Temperature range: -20°C up to +95°C

# HSK-EX-Active Cable gland

Explosive area

## HSK-EX-Active

For use in explosive areas

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Fibreglass reinforced polyamide V0 acc. to UL 94  
Seal: NBR  
O-ring: NBR

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

### Properties

- Easy to assemble
- Completely water-tight
- Optimum strain relief
- Large clamping areas

### Note

**EC-Type Examination Certificate:**  
BVS 14 ATEX E 025 X

**IECEx Certificate of Conformity:**  
IECEx BVS 14.0020X

### Marking:

II 2G Ex e IIC Gb, II 1D Ex ta IIIC Da

### Technical data

Protection class: IP 68 – 10 bar acc. to DIN EN 60529

Temperature range: -20°C up to +85°C

Test standard: EN 60079-0:2012 / EN 60079-7:2007 / EN 60079-31:2011 / IEC 60079-0:2011 / IEC 60079-7:2007 / IEC 60079-31:2013

# HELUTOP® HT-MS-EX-d Cable gland

Brass, explosive area, pressure resistant

## HELUTOP® HT-MS-EX-d

For use in explosive areas

### Application

- Zone 1, Zone 2, Zone 21, Zone 22, IIA, IIB, IIC

### Material

Brass, nickel plated  
Clamp: Polyamide PA 6  
Seal: Chloroprene-rubber (CR)  
O-ring: Chloroprene-rubber (CR)

### Note

#### Certificate of Conformity:

IMQ 11 ATEX 018X

**Marking:** Ex-d, Ex-e, EX II 2GD, Exd IIC Gb, Exe IIC Gb, Ex t IIIC DB

Stainless steel 1.4404 and other temperature ranges available on request.

**Unit: 1 pcs**

### Technical data

Protection class: IP 66 / IP 68 (EN 60529)

Temperature range: -40°C up to +80°C

Test standard: EN 60079-0:2012 / EN 60079-1:2007 / EN 60079-7:2007 / EN 60079-11:2012 / EN 60079-31:2014 / IEC 60079-0:2012 / IEC 60079-1:2014 / IEC 60079-7:2006 / IEC 60079-11:2011 / IEC 60079-31:2013

# HELUTOP® HT-MS-EX-d 1 EMV

Brass, explosive area, pressure resistant

## HELUTOP® HT-MS-EX-d 1 EMV

For use in explosive areas. For cables with braided hose, copper tinned (EMC)

### Application

- Zone 1, Zone 2, Zone 21, Zone 22, IIA, IIB, IIC

### Material

Brass, nickel plated  
Contact system: Copper-Beryllium  
Clamp: Polyamide PA 6  
Seal: Chloroprene-rubber (CR)  
O-ring: Chloroprene-rubber (CR)

### Note

Also available in stainless steel 1.4404, further sizes or for other temperature ranges on request.

# HELUTOP® HT-MS-EX-d / e4

Brass, explosive areas, for armoured cables

## HELUTOP® HT-MS-EX-d / e4

For use in explosive areas. For armoured cables (copper or steel).

### Application

- Zone 1, Zone 2, Zone 21, Zone 22, IIA, IIB, IIC

### Material

Brass, nickel plated  
Clamp: Polyamide PA 6  
Seal: NBR  
O-ring: NBR

### Properties

- Sealing
- Strain relief
- EMC
- Explosive protection

### Note

Stainless steel 1.4404 and other temperature ranges on request.

**PVC shrouds and earth tags on request.**

**Certificate of Conformity:** CESI 13 ATEX 033X, IECEx CES 13.0013X

**Marking:** Ex II 2 GD, Exd IIC Gb / Exe IIC Gb, Extb IIIC Db

# Adapter PA-ATEX

Explosive area

## Adapter PA-ATEX

Adapter made of polyamide for thread adjustment from PG to metric, for use in explosive areas.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

### Material

Polyamide

Colour: black  
RAL: 9005

- halogen-free
- phosphor-free
- silicone-free
- cadmium-free

### Note

Approval: PTB 04 ATEX 1040 X

### Technical data

Protection class: IP 66

Temperature range: -20°C up to +70°C

### Dimensions

G Thread size outside  
IG Thread size inside

### From PG to metric

HELUTOP HT

HSK-PVDF

**HELUTOP MS-EP4**

KVA-XXL-MS

HELUTOP HT-Clean

## HELUTOP® Easy

Threadless cable gland for easy and quick installation with patented spring/snap system without tools.

### Advantages:

- No tools required for installation
- No threaded holes required
- No locknuts required
- Same clamping range as HELUTOP® HT-Series
- VDE-according to DIN EN 62444
- Gland and cable will be fixed with clockwise thread
- Installation in tight areas and no-access spaces (locknut side)
- Cable gland fits as tightly as traditional gland held in place with threaded hole or locknut
- Hexagon of body and cap are same SW
- Large wall thickness range: 0,5 – 4,0 mm
- Quick and easy disassembly with separate tool. No damage to cable gland or wall

## Material

PA 6, V2 acc. to UL 94  
Seal: Chloroprene-rubber (CR)

## Note

# HELUFAST Threadless cable gland

## HELUFAST

Threadless plastic cable gland for easy and quick installation.

### Application

- Plant and machine construction
- Automation technology
- Installation technology
- Control cabinet construction

### Material

PA 6, V2 acc. to UL 94  
Seal: NBR

- halogen-free

### Properties

- Quick and simple assembly
- Can be mounted close together
- No locknut required
- Optimum strain relief
- Large clamping areas
- Infinitely applicable for different wall thicknesses

### Note

Wall thickness 2,5-4,0 mm.  
Color of clamping ring: green

# HELUTOP® HT-Clean Stainless steel cable gland

## HELUTOP® HT-Clean

Highest requirements to cleanliness and cleaning.

- EHEDG authorized
- ECOLAB certified

## Application

- Food industry - milk and meat products
- Packaging of food machines
- Beverage industry
- Pharmaceutical industry
- Clean room technology
- Biotechnology
- Chemical industry

## Material

Stainless steel 1.4305 / AISI 303  
Strain relief: POM  
Grommet: TPE according to  
FDA 21 CFR 177.2600

## Properties

- The smooth surface prevents to adhere harmful micro organisms
- Easy, fast and less expensive cleaning because of the smooth surface
- Suitable for high pressure steam cleanin
- Resistent against chemical cleaning supplies
- No threads are exposed
- High tightness
- No enter from water and dirt from outside
- Reliable strain relief due to strain relief element separated from grommet

## Note

- For tightening from outside use the listed tightening tool
- Assembly with commercial socket wrench
- Delivery including counter nut

## Technical data

Protection class: IP 68-5 bar, 30 min.  
according to EN 60529;  
IP 69K according to DIN 40050-9

Temperature range: -20°C up to +100°C  
Temperature range temporary: -40°C up to +150°C

## Dimensions

- D Outer diameter of upper part
- D2 Inner diameter of thread
- D4 Inner diameter of upper part
- H Hight without thread
- TL Thread length
- SW Spanner size
- SW L Spanner size Counter nut

# HELUTOP® HT-MS Plus Cable gland

For increased strain relief

## HELUTOP® HT-MS Plus

Nickel-coated brass cable gland for very high density and strain relief.

### Application

- Plant and machine construction
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

### Material

Brass, nickel plated  
Seal: NBR  
O-ring: NBR

### Properties

- Optimum strain relief through clamping plates (strain relief B to EN 50262 over the entire clamping region)
- Easy to assemble
- Large clamping areas

### Note

For rotating the cap nut use tool. Note tightening torque!  
Details on the individual tests appear in section "Technical Information".

### Technical data

Protection class: IP 68 - 40 bar / IP 69K  
Temperature range: -40°C up to +120°C

Test standard: EN50262

### Dimensions

# HSSV-KF Collapsible flange gland

## HSSV-KF Collapsible flange gland

Opening flange angle for connection glands or cable glands.

- Flange angle opened to enable simple insertion of pre-assembled cables
- Simple assembly
- Highly stable

## Material

Polyamide PA 6

Flammability acc. to UL 94: V0

- halogen-free
- cadmium-free

## Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

## Note

- UR-tested
- Threaded connection metric to EN 60423

## Technical data

Protection class: IP 65

Temperature range: -40°C up to +110°C

Temperature range temporary up to +140°C

## Dimensions

- G Thread size inside  
 H Height  
 B Width  
 L Length

## Metric thread - female

# HELUTOP® HT-AIR-PA To prevent water condensation

## HELUTOP® HT-AIR-PA

Cable gland with integrated pressure compensation and ventilation system. Prevents water condensation.

### Application

- High sealing enclosures
- Environments with extensive temperature ranges

### Material

Polyamide PA 6  
Seal: Chloroprene-rubber (CR)  
Flat seal: NBR  
Vent element: PTFE

- phosphor-free
- silicone-free
- cadmium-free

### Properties

- A membrane accounts for, that air humidity can leave the enclosure, just at less pressure differences
- Different pressures will reduce water condensation
- No enter from water and dirt from outside
- High strain relief
- Large clamping areas

### Technical data

Protection class: IP 66 / IP 67 / IP 69k

Temperature range: -20°C up to +80°C  
Temperature range temporary: -30°C up to +150°C

Test standard: EN 50262, EN 60423 (metric thread)

### Dimensions

# PBE-K Pressure balance element

## PBE-K

Pressure balance element made by polyamide. With semi permeable membrane that allows air flow but blocks moisture.

## Application

- Plant and machine construction
- Installation technology
- Control cabinet construction

## Material

Polyamide PA 6

## Technical data

Protection class: IP 68 / IP 69K

Temperature range: -20°C up to +105°C

## Dimensions

# HELUcond PE Corrugated tubes, polyethylene

Weak stress

## HELUcond PE-F / PE-B

Cable protection tube for weak stress applications.

Capacity/100mm NW 17: approx. 200 N

### Application

- Plant and machine construction
- Automation technology
- Installation technology
- Control cabinet construction

### Material

Mod. Polyethylene

Flammability acc. to UL 94: HB

- halogen-free

### Properties

- Resistant to bases.

### Note

Suitable connection glands:  
HELUquick.

### Technical data

Temperature range: -40°C up to +70°C

Temperature range temporary up to +90°C

### Fine profile / PE-F

Part no. grey	Part no. black	Nominal size mm	Inner Ø mm	Outer Ø mm	Per metres	Net EUR/100 metres at a purchase of

# HELUcond PA6-L Corrugated tubes, polyamide

Weak stress

## HELUcond PA6-L

Cable protection tube for weak to medium stress applications.  
Capacity/100mm NW 17: approx. 250 N

### Application

- Plant and machine construction
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

## Material

Mod. Polyamide PA 6  
Flammability acc. to UL 94: V2

- halogen-free
- phosphor-free

## Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

## Note

Suitable connection glands:  
HELUquick, HSSV.

## Technical data

Temperature range: -40°C up to +120°C  
Temperature range temporary up to +150°C

## Fine profile

Part no. grey	Part no. black	Nominal size mm	Inner Ø mm	Outer Ø mm	Per metres	Net EUR/ 100 metres at a purchase of

# HELUquick Corrugated tubes conduit gland - straight

Plastic male thread

## HELUquick gland straight

Quick-insert glands for a reliable, quick connection.  
Suitable for parallel-corrugated HELUcond protection tubes.

## Material

Polyamide PA 6

- halogen-free
- silicone-free
- cadmium-free

## Technical data

Protection class: IP 68

Temperature range: -40°C up to +115°C

## Properties

Resistant to a multitude of

- Oil
- Gasoline
- Weak bases
- Weak acids

## Note

- UR-tested
- Disassembly without additional opener.  
Also available angled (45° and 90°).

## Metric thread

# HELUquick Corrugated tubes conduit gland - elbow 90°

Male thread, plastic

## HELUquick gland elbow 90°

Quick-insert glands for a reliable, quick connection.

Suitable for parallel-corrugated HELUcond protection tubes.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Polyamide PA 6

- halogen-free
- silicone-free
- cadmium-free

### Properties

Resistant to a multitude of

- Oil
- Gasoline
- Weak bases
- Weak acids

### Note

- UR-tested
- Disassembly without additional opener.  
Also available straight and angled 45°.

# ■ HELUKABEL® PROTECTION TUBE SYSTEMS PLASTIC/METAL

## HSSV HELUcond Quick Connection

Just insert the tube and you are done

The quick and easy one-hand installation or removal saves time. The corrugated tube will be just inserted into the gland body and the connection is ready. The connection is released by sliding a special opener over the corrugated conduit until the raster unit is pushed outwards from the recesses in the conduit. Pull out the corrugated conduit. This operation is completed manually in just a few minutes.

### The BENEFITS of this system

- Captive components from one piece
- Quick and easy single-handed assembly using the connection system
  - even in locations which are difficult to access
- Compact gland design enables adjacent installation
  - extremely high packing density
- Yellow safety opener enables simple disassembly from the front
- Universal gland installation
  - universal gland installation for a number of different corrugated profiles
- Protection classification: IP 65 to IP 68
  - Seating surface in gland (corrugated tube) is cylindrical, improving tightness
- Extremely reliable, especially in the field of robotics
  - vibrations do not cause connection to self-release
  - high extraction forces
  - corrugated conduit can be released only using the yellow safety opener
  - cannot be opened accidentally
  - corrugated conduit can rotate in the gland, thus preventing torsion
- Environmentally-friendly
  - halogen-free polyamide PA 6, combustibility to UL 94:V0
  - Material is UL and CSA listed
  - gland body is 100% recyclable
- Very cost-effective
  - optimum price/performance ratio thanks to one gland providing entire function

# HSSV Corrugated tubes conduit gland - straight

Male thread, plastic

## HSSV gland straight

Quick-insert glands for a reliable, quick connection.

Suitable for parallel-corrugated HELUcond protection tubes.

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material

Polyamide PA 6

Flammability acc. to UL 94: V0

- halogen-free
- cadmium-free

## Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

## Note

- UR-tested
- Protection classification:
- IP 66 with outer seal
- Threaded connection:
- Metric to EN 60423
- Each unit includes 1 safety opener

## Technical data

Protection class: IP 65

Temperature range: -40°C up to +110°C

# HSSV Corrugated tubes conduit gland - elbow 90°

Metal male thread

## HSSV gland 90° with metallic male thread

Quick-insert glands with metallic male thread for a reliable, quick connection. Suitable for parallel-corrugated HELUcond protection tubes.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Polyamide PA 6

Flammability acc. to UL 94: V0

- halogen-free

### Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

### Note

- UR-tested
- Protection classification:
- IP 66 with outer seal
- Threaded connection:
- Metric to EN 60423
- Each unit includes 1 safety opener.

### Technical data

Protection class: IP 65

Temperature range: -40°C up to +110°C

### Metric thread

# HSSV combination Corrugated tubes cable gland

## Conduit gland HSSV, combined

Combined with brass cable gland.  
Combined quick-insert cable glands with single sealing insert for a reliable, quick connection.  
Suitable for parallel-corrugated HELUcond protection tubes.

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material

Flammability acc. to UL 94: V0

- halogen-free
- cadmium-free

## Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

## Note

Protection classification on cable with UNI-DICHT sealing insert:

- with colour-coded sealing insert: IP 68 - 10 bar in indicated clamping area with multiple sealing inserts to IP 65 and/or IP 68, when bore diameter in seal insert and cable diameter are identical

Threaded connection:

Metric to EN 60423

Each unit includes 1 safety opener

Gland also available with PG thread on request.

Suitable UNI-DICHT sealing inserts are detailed in Section "Cable glands".

## Technical data

Protection class by tube: IP 65

Temperature range: -40°C up to +110°C

# SH, SHV Corrugated tube holder

## System holder

### SH, SHV- system holder

System holder for HELUcond protection tubes. Universal system holder with optional clips for extreme loads. Quick assembly through single-hole fastening.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Polyamide PA 6

Flammability acc. to UL 94

- halogen-free

### Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

### Technical data

Temperature range: -40°C up to +110°C

# SD, VS, HT Corrugated tube holder

## System holder accessories

### SD/ VS/ HT

Accessories for system holder SH/SHV

### Material

Polyamide PA 6

### Technical data

Temperature range: -40°C up to +110°C

- halogen-free

### Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

### SD cap for holder

Part no. grey	Part no. black	Suitable for tube ND mm	Unit	Net EUR/100 items at a purchase of

# USH Corrugated tube holder

With flange pipe holder

## USH

Tube holder for HELUcond protection tube. Universal, high-strength tube holder with double struts. Fastening bores suitable for horizontal and vertical rail systems in control cabinet.

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material

Polycarbonate

Flammability acc. to UL 94

- halogen-free
- phosphor-free
- cadmium-free

## Technical data

Temperature range: -30°C up to +100°C

## USH with flange pipe holder

Part no. grey	Part no. black	Suitable for tube with outer Ø	Width mm	Height mm	Unit	Net EUR/100 items at a purchase of		
						up to 100	101 - 500	501 - 1000

# ■ HELUCOND PROTECTION TUBE

## Cable protection tube distributor

Protection tube distributor for a secure and fast connection.  
Suitable for parallel corrugated HELUcond protection tubes.

## Application

- Plant construction and mechanical engineering
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material properties

Material:  
• Polyamide PA6  
Halogen-free, cadmium-free  
• In black UV resistant

Properties:  
• Resistant against a number of:  
fuels, mineral oils, greases  
weak bases, weak acids

## Technical data

Protection classification:  
• IP 54  
Operating temperature:  
-40°C to +110°C  
Recommended warehousing:  
• Storage temperature +20°C ±5°C  
• Humidity 55% to 75%

## The variable HELUcond protection tube distributor for nominal widths NW 17 reduces to 7.5

1 Basis = 9 different versions

The different variations are numbered from 1 to 9. Please select the required version and indicate the necessary nominal width of the corrugated tube for connection A, B and C. The corrugated tube connections will be pre-assembled at factory following your wishes. You will exactly receive the distributor according to your requirements.

Bore distance: 24 mm / bore diameter: 5.2 mm

# ■ HELUCOND PROTECTION TUBE

## Cable protection tube distributor

Protection tube distributor for a secure and fast connection.  
Suitable for parallel corrugated HELUcond protection tubes.

### Application areas:

- Plant construction and mechanical engineering
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material properties

Material

- Polyamide PA6
- Halogen-free, cadmium-free
- In black UV resistant

Properties:

- Resistant against a number of: fuels, mineral oils, greases weak bases, weak acids

## Technical data

Protection classification:

- IP 54

Operating temperature:

-40°C to +110°C

Recommended warehousing:

- Storage temperature +20°C ±5°C
- Humidity 55% to 75%

## The variable HELUcond protection tube distributor for nominal widths NW 29 reduces to 7.5

1 Basis = 2 x 3 different versions

The basic model is the same on both sides and enables 2 x 3 variations.

The different variation possibilities are numbered from 1 to 6.

Please select the required version and indicate the necessary nominal width of the corrugated tube for connection A, B and C.

The corrugated tube connections will be pre-assembled at factory following your wishes.

You will exactly receive the distributor according to your requirements.

Bore distance: 47 mm / bore diameter: 6.2 mm

# ■ JUMBO ASSEMBLY INSTRUCTION

## JUMBO

One-piece flange connection  
Suitable for parallel corrugated JUMBO protection tubes.

### **Saves time and money when it comes to install cables and wires to machines and systems.**

There are often many cables and wires have to be installed between machines and equipment. These cables and wires are for compressed air or hydraulic liquids or used for power supply cables. For safety reasons, it is recommended to lay these cables in bundles. Therefore, there are protection tubes which protect cables for damages.

So far it has been difficult to replace a damaged cable or to add a new one as the connecting parts - especially those with an angle profile - made it almost impossible to assemble or disassemble the particular cable.

This problem has now been solved by the protection tube form JUMBO series. It features straight and angle single-part profiles.

The JUMBO multi-tubing is pushed by pressure into the threaded joint at an angle of 30° until it clicks in. It is now already pre-fixed. The hinge is locks, this can be done with and without tools. You will benefit from a safe, flexible, and optically appealing cable protection system.

Another advantage of the JUMBO systems is that additional cables can be added and damaged cables can be pre-replaced easily and without any problems.

You just need commercial tools to disengage the notch opposite the film flange. The tube is still held. The tubing is dismantled from the joint by pulling the safety fish at the lever extension of the safety notch.

### **Easy mounting through pre-locking mechanism**

# JUMBO PA6 oversize corrugated tubes, polyamide

For heavy-duty mechanical applications

## JUMBO PA6

Cable protection tube for medium to heavy-duty applications.  
Capacity/100mm: approx. 1200 N / 800 N

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Mod. Polyamide PA 6  
Flammability acc. to UL 94: V0

- halogen-free
- cadmium-free

### Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

### Note

Suitable connection glands:  
JUMBO gland  
Bending behaviour: very good

### Technical data

Temperature range: -40°C up to +140°C  
Temperature range temporary up to +160°C

Part no. grey	Part no. black	Nominal size mm	Inner Ø mm	Outer Ø mm	Bending radius mm	Per metres	Net EUR/100 metres at a purchase of

# JUMBO PA12 Oversize corrugated tubes, polyamide PA12

For heavy-duty mechanical applications

## JUMBO PA12

Cable protection tube for heavy-duty applications.

Capacity/100mm: approx. 700 N / 800 N

### Application

- Robotics
- Handling systems
- Vehicle construction
- Drag chains

### Material

Mod. Polyamide 12

Flammability acc. to UL 94: V0

- halogen-free
- cadmium-free

### Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

### Note

Suitable connection glands:

JUMBO gland

Bending behaviour: very good

### Technical data

Temperature range: -50°C up to +120°C

Temperature range temporary up to +150°C

Part no. grey	Part no. black	Nominal size mm	Inner Ø mm	Outer Ø mm	Bending radius mm	Per metres	Net EUR/100 metres at a purchase of

# JUMBO PUR oversize corrugated tubes, polyurethane

For maximum mechanical applications

## JUMBO PUR

Cable protection tube for maximum duty robot applications.

- Lowest cost quality
  - High abrasion resistance
- Capacity/100mm: approx. 500 N / 800 N

## Application

- Robotics
- Handling systems
- Vehicle construction
- Drag chains

## Material

Mod. Polyurethane PUR

Flammability acc. to UL 94: HB

- halogen-free
- cadmium-free

## Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

## Note

Suitable connection glands:  
JUMBO gland  
Bending behaviour: very good

## Technical data

Temperature range: -40°C up to +125°C  
Temperature range temporary up to +140°C

Part no. black	Nominal size mm	Inner Ø mm	Outer Ø mm	Bending radius mm	Per metres	Net EUR/ 100 metres at a purchase of		
						up to 100	101 - 500	501 - 1000

# JUMBO-FP Flange connection

## JUMBO-FP

One-piece straight flange connection. Suitable for parallel-coiled JUMBO protection tubes.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Polyamide PA 6

Flammability acc. to UL 94: V0

- halogen-free
- cadmium-free

### Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

### Note

Additional seal increases protection classification to IP 65

JUMBO sealing set:

Set contains 1 x o-ring and 1 x cellular rubber seal

### Technical data

Protection class: IP 54

Temperature range: -40°C up to +115°C

### Flange connection

Part no. grey	Part no. black	Suitable for ND	Unit	Net EUR/100 items at a purchase of

# JUMBO-WFP Flange connection angled 90°

## JUMBO-WFP

One-piece flange connection, 90° angle. Suitable for parallel corrugated HELUcond Jumbo protection tubes.

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material

Polyamide PA 6

Flammability acc. to UL 94: V0

- halogen-free
- cadmium-free

## Properties

Resistant to a multitude of

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

## Note

Additional seal increases protection classification to IP 65.

JUMBO sealing set:

Set contains 1 x o-ring and 1 x cellular rubber seal.

## Technical data

Protection class: IP 54

Temperature range: -40°C up to +115°C

## Flange connection – angled 90°

Part no. grey	Part no. black	Suitable for ND	Unit	Net EUR/100 items at a purchase of

## ■ SPLIT PROTECTION TUBES

Split protection tubes are perfectly suited for subsequent protection.

Cables and wires are often wired with their connectors. If protection then becomes necessary, HELUcond CO-PA and HELUcond CO-PP are the right solution.

The wires can be inserted into the inner protection tube using the KE cable insertion aid. The second protection tube closes and protects finally. The dividable COV gland including the lock nut protects the housing connection. The tube holder COS and the flanged pipe holder USH are used for fastening the protection tube.

# HELUcond CO-PA Corrugated tubes, polyamide

Dividable

## HELUcond CO-PA

The dividable and reclosable cable protection tube for subsequent mechanical protection.

- Trouble-free retrofitting
- High mechanical strength
- Simple installation of pre-fabricated cables
- Repair of existing systems

## Application

- Plant and machine construction
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material

Polyamide 6  
UV-resistant

Flammability acc. to UL 94: HB

- halogen-free

## Properties

Resistant to a multitude of:

- Fuels
- Mineral oils
- Greases
- Weak bases
- Weak acids

## Note

Suitable connection glands:  
COV

# COS Corrugated tubes holder

For dividable corrugated tubes

## Tubing clamp COS

Tube holder for dividible HELUcond CO protection tube

- Quick fastening with integrated rib, which also fixes the protection tube in an axial direction

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material

Polyamide PA 6

Flammability acc. to UL 94

- halogen-free
- cadmium-free

## Properties

- Resistant to a multitude of fuels, mineral oils, greases, weak bases, weak acids

## Technical data

# S Cable protection tube

With integrated PVC sheathed spring steel wire helix

## Type S

Cable protection tube type S with integrated spring steel wire, extremely flexible, expandable and compressible.

## Application

- Plant and machine construction
- Automation technology
- Installation technology
- Control cabinet construction

## Material

PVC

- silicone-free
- cadmium-free

## Note

Suitable connection glands:  
USK, LK-I, US and LI

## Technical data

Temperature range: -25°C up to +80°C  
Temperature range temporary up to +100°C

# S-PU Cable protection tube

With integrated PUR sheathed spring steel wire helix

## Type S-PU

Cable protection tube type S-PU with PUR outer sheath and integrated spring steel wire, extremely flexible, expandable and compressible.

## Application

- Plant and machine construction
- Automation technology
- Installation technology
- Control cabinet construction

## Material

Polyurethane  
UV-resistant

- halogen-free
- silicone-free
- cadmium-free

## Properties

Resistant to

- Oil
- Gasoline
- Microbial attack
- UV-radiation
- Weathering
- Extensively to acids and alkalis

## Note

Suitable connection glands:  
USK, LKI, US and LI

# UI Metal tube, stainless steel

With agraff-profile

## Type UI

Spiral wound tube made by stainless steel with double-folded profile (Agraff profile). High tensile and torsional strength.

## Application

- Robotics
- Steel and aluminium foundry industry
- Maschine and apparatus building
- Off-shore-industry
- Security
- Metal, glass and ceramics industry

## Material

Stainless steel  
UV-resistant

## Note

Suitable connection glands:  
LT-E-UI

# US Tube gland brass nickel plated

With high degree of protection

## US

Tube gland for protection tubes type S, S-PU, M, SPR-AS, SPR-PVC-AS, SPR-PU-AS, SPR-EDU-AS.

## Material

Brass, nickel plated  
Grounding sleeve: Brass, bare  
Seal: plastic

## Technical data

Temperature range: -25°C up to +100°C

## Application

- Plant and machine construction
- Automation technology
- Installation technology
- Control cabinet construction

## Note

Protection classification:  
IP 65 - type: SPR-PVC-AS, SPR-PU-AS  
IP 54 - type: S, S-PU  
IP 40 - type: M, SPR-AS, SPR-EDU-AS

# LI Tube gland, metal

With circlip

## LI

Tube gland for protection tubes type S, S-PU, M, SPR-AS, SPR-EDU-AS, SPR-PVC-AS. The rotating interior sockets with tube rotation lock is inserted into the gland and secured against tearing by the spring steel ring.

## Material

Brass, nickel plated  
Grounding sleeve: Brass, bare  
Retaining ring: ex spring steel

## Technical data

Protection class: IP 40  
Temperature range: -40°C up to +250°C

# LT-E-UI Conduit gland - straight

Stainless steel

## LT-E-UI straight

LIQUIDTIGHT gland for stainless steel protection tubes UI.  
The conical earthing sleeve offers maximum surface contact for optimum sealing and earthing.

## Material

Stainless steel  
Grounding sleeve: Brass, nickel plated  
Seal: Brass, nickel plated  
Seal: NBR

- halogen-free

## Technical data

Protection class: IP 40

Temperature range: -55°C up to +260°C

## Application

- Robotics
- Steel and aluminium foundry industry
- Machine and apparatus building
- Off-shore industry
- Security
- Metal, glass and ceramics industry

# LT-E-UI Conduit gland - 90°

Stainless steel

## LT-E-UI 90°

LIQUIDTIGHT conduit gland for stainless steel protection tubes UI.  
The conical earthing sleeve offers maximum surface contact for optimum sealing and earthing.

## Material

Stainless steel  
Grounding sleeve: Brass, nickel plated  
Seal: Brass, nickel plated  
Seal: NBR

- halogen-free

## Technical data

Protection class: IP 40

Temperature range: -55°C up to +260°C

## Application

- Robotics
- Steel and aluminium foundry industry
- Machine and apparatus building
- Off-shore industry
- Security
- Metal, glass and ceramics industry

EES

T&B TUBE CONNECTOR

LT-CNP

ANACONDA

SEALTITE®

## EF

Universal applications.  
Protection tube from reinforced, galvanized steel band with spiral wound, latched profile, a continuous cord seal and extruded plastic sheath. This complex construction method keeps the plastic sheath and the internal tube together.

## Material

Galvanized steel

Outer sheath material: PVC

## Note

Suitable connection glands:  
LT straight, LT angled, T&B straight, T&B angled.  
Dimensions 2 1/2", 3", 4", 5" and 6" available on request.

## Technical data

Protection class: IP 67

# Anaconda Sealtite® NMFG-Clean

For highest standards of cleanliness and purity

## NMFG-Clean, blue

Thick, soft, smooth, thermoplastic PVC tube with integrated Hard PVC spiral

### Application

- Food industry - milk - and meat products
- Packaging of food machines
- Beverage industry
- Pharmaceutical industry
- Biotechnology
- Chemical industry

### Material

Special PVC according to FDA CFR 21 and NSF 51 (USA-standard)

### Properties

- Liquid tight
- The smooth surface prevents to adhere harmful micro organisms
- Easy and fast cleaning because of the smooth surface
- Suitable for high pressure steam cleaning
- Resistant against chemical cleaning supplies
- High flexible

### Note

Suitable connection glands:  
LT-FG-Clean (up to M50), LT-straight,  
LT-angled, LT-E-UI-straight, LT-E-UI-angled

### Technical data

Protection class: IP 67 - in conjunction with the suitable tube connectors

Temperature range: -20°C up to +60°C  
Temperature range temporary up to +80°C

# CV Compact Conduit gland - straight

Brass

## Conduit gland CV Compact straight

Brass nickel-plated conduit gland.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

### Material

Brass, nickel plated  
Grounding sleeve: Steel  
Seal: Polyamide

### Technical data

Protection class: IP 67

Temperature range: -45°C up to +105°C

### Note

Suitable for metallic protection tubes:  
EF, HTDL, OR, HC, HXC, ZHLS, HFX

### Metric thread

# LT-FG-Clean Conduit gland, stainless steel

## LT-FG-Clean

Highest requirements to cleanliness and cleaning.

## Application

- Food industry - milk and meat products
- Packaging of food machines
- Beverage industry
- Pharmaceutical industry
- Chemical industry

## Material

Housing material: Stainless steel AISI 316  
 Ferrule: Brass, nickel plated  
 Clamping ring and insert: PA 6  
 Outer seal and sealing ring: TPE according to FDA 21 CFR and NSF 51 (USA-Norm)  
 Grounding sleeve: Steel

## Properties

- High corrosion resistance
- The smooth surface prevents to adhere harmful micro organisms
- Easy, fast and less expensive cleaning supplies
- No threads are exposed
- High tightness
- No enter from water and dirt from outside
- High mechanical load capacity

## Technical data

Protection class: IP67 (40bar, 80°C)

Temperature range: -45°C up to +105°C

## Note

Suitable protection tubes:  
 Anaconda Sealtite FG-Clean, also possible EF,  
 HTDL, OR, HC, HCX, ZHLS, HFX

# ■ INSTALLATION MANUAL

## Cable installation in drag chains

The control cables in drag chains undertake an important task for the controlling and power technique, must be good synchronized with each other in the power chain systems. Further the installation of the cables and protection tubes in the power drag

chains must be conducted with great care. Basically, please note the following:

1. Cables (flat and round) should be installed separately next to another. Separators should be placed between the cables next to each other. Please avoid to place different sizes of round cables with higher differences in cable diameters next to each other. If it is not possible to install cables on top of each other, due to the limited space, please install separators.

2. The cables must move freely in the chain web. The free space for the cables should be at least 10 % of the cable diameter.

3. Always ensure that the cable runs through the radius of curvature without problems.

If the cables should be installed in the drag chain in layers then it is important to check that there is enough space in the curvature.

5. Cables should always be installed free of twists into the drag chains. The cables must be reeled down tangential from the reels or drums; the cables should not be lifted up in twisted or looping form over head. The cables must be laid in straight and non-twisted form on plane surface before installation. The cables must have an additional length of at least 10% of the whole length so that these can be laid freely without twisting in the drag chain. Notes for a vertical installation:

The cables must have at least 20% more space within the root-face height because the cable weight including the chain is heavy and the cables could sag downwards. This drawdown should be kept in mind and must be adjusted periodically.

## Download Questionnaire for Energy Drag Chain Systems:

You can download the questionnaire for energy drag chains simply under: [www.helukabel.de/Erhebungsbogen-Energie.pdf](http://www.helukabel.de/Erhebungsbogen-Energie.pdf)

6. In case that is not possible to lay the cables as described in point 1, we recommend the use of a guiding tube, in which these cables should loosely laid when using several multi-wire highly flexible cables with a diameter < 10 mm. The cross section of the tube has to be much larger than the sum of the single cable cross sections.

7. In case that pressure- or hydraulic tubes are integrated in a power drag system, it should be guaranteed that the tubes can be freely move in the chain web due to the fact that they will shorten or stretch under alternating loads. Please contact the Cable Accessories department for further information.

8. The weight distribution in the chain web should be symmetrical. Ensure that the weight of the cables inside is divided up evenly, with the heavier cables installed on the edges and the lighter types in the middle. The cables should be connected on both sides on strain relief, or at least at the flexible part of the drag chain. Therefore it has to be noticed, that the compression occurs on a large area so that the cable is fixed on the outer sheath. The clamping has to be proceeded so that the single cores cannot be pinched in the cable and a movement of cables is not possible. This is the only way that a necessary length compensation is possible. A distance from 20 to 30 x cable diameters between end of the bending movement and fixing should be an indicative value. Generally it is recommended, if possible, not to use cables with a multi layer construction, e.g. >25 cores, but to split the necessary number of conductors over several cables.

## Questionnaire for energy drag chains

Company	Installation site
First name, Name	Kind of machine
Street, No.	In operation since

Please order per chain  
 2 chain connections.  
 You will automatically receive  
 1 piece with bore  
 and 1 piece with bolt.

Subject to technical modifications.

Conduit conveyance outside the middle      Conduit conveyance in the middle

L = Moving distance, R = Radius,  
 H = Installation height, T = Pitch,  
 E = Distance between entry point and  
 middle of movement distance

## Specification of the chain length

$$\text{Length} = \frac{L}{2} + p \times R + 2 \times T + E$$

< 1 m Chain = 67 piece. Chain links à 15 mm

The fixed point of the drag chain should be in the middle of the movement distance

This arrangement gives the shortest connection between fixed point and the moving consumer and thus the most efficient chain length.

 9 special version

**Order number:**

Example: Internal width = 26 mm, Radius = 60 mm, Bridge version = 0, Version = 0

**Order number: 0250 026 060 0000**

**Please order per chain 2 chain connections. You will automatically receive 1 piece with bore and 1 piece with bolt.**

Prices on request  
 Subject to technical modifications.

Conduit conveyance outside the middle      Conduit conveyance in the middle

$L$  = Moving distance,  $R$  = Radius,  
 $H$  = Installation height,  $T$  = Pitch,  
 $E$  = Distance between entry point and middle of movement distance

## Specification of the chain length

$$\text{Length} = \frac{L}{2} + p \times R + 2 \times T + E$$

< 1 m Chain = 33 piece. Chain links à 30 mm

The fixed point of the drag chain should be in the middle of the movement distance

This arrangement gives the shortest connection between fixed point and the moving consumer and thus the most efficient chain length.

# SAFELINE EFK 36G

## Technical data

- Internal height 36 mm
- Internal width 62-125 mm
- Loading side - inside bend
- Links per meter: 25
- Chain pitch: 40 mm
- Maximum cable diameter: 32 mm
- Maximum movement distance: max. 80 m
- Material: Modified Polyamid

Version (order code)

## Braided hose CU

Braided sleeve for screening and interference protection of electrical cables and wires; also used for mechanical protection and building.

### Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material

Copper, tinned

## Properties

Axially compressible

## Note

Also available in 10m lengths

## Technical data

Temperature range: -75°C up to +150°C

### Copper, tinned

# HTP Protection tube

High temperature protection

## HTP

This product is extremely heat resistant. HTP has a high insulation factor and, due to the iron oxide containing silicone sheath, is resistant to small quantities of liquid steel. HTP also protects against burn injuries from steam tubes, hot air or hot water wires.

## Material

Interior sheath of knitted glass-fibre braid  
Silicone sheath (contains iron oxide)  
Colour: orange

## Technical data

Permanent load: +260°C  
Short-time load: +1090°C  
(up to approx. 20 minutes)  
Loading moment: +1640°C  
(approx. 15-30 seconds)

## Protection tube

# HTP Clamping ring

High temperature protection

## Clamping rings for braided sleeve HTP

To assemble the tube connectors LT to the high temperature protection tube HTP.

The plastic clamping ring is replaced by the brass clamping ring.

## Material

Brass, nickel plated

## Note

In conjunction with the tube connectors LT:  
Protection classification IP 54

## Technical data

Temperature range: -45°C up to +105°C

## Clamping ring

# SI Insulating tube

Silicone

## SI

Silicone insulating tube for insulating and bundling wires and lines.

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

## Properties

Softener and heavy metal free, physiologically and toxicologically harmless with good chemical resistance.

## Technical data

DIN 40628

# SCH Heat-shrink tubing 2:1

PVC

## SCH

PVC shrink tubing for repairing insulation and sealing electrical components.

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

## Material

PVC

Colour: black

Flammability acc. to UL 94: V0

- silicone-free

## Note

**Attention:** Do not store tubes at temperatures over 18°C! Otherwise properties will be changed! Longitude shrinkage approx. 20-30%  
The colours orange, yellow, white, blue, green, brown, red are available on request.

## Technical data

Temperature range: -20°C up to +90°C

## Black

# HFS Heat-shrink 2:1 - halogen free

Polyolefin

## HFS rolls

Halogen-free polyolefin shrink tube for repairing insulation and sealing electrical components.

## Application

- Plant and machine construction
- Automation technology
- Installation technology
- Control cabinet construction

## Material

PO (Polyolefin)

Colour: black

- halogen-free

## Technical data

Temperature range: -55°C up to +105°C

## Black

# SK-D Heat shrink 3:1 - with interior adhesive

Polyolefin - thick walled

## SK-D

Polyolefin shrink tube with internal adhesive for repairing insulation and sealing electrical components.

For the protection of cable sleeves and terminations for low-voltage applications (600V).

Good protection against impact and abrasion.

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Installation technology
- Control cabinet construction

## Material

PO (Polyolefin) with internal adhesive

Colour: black

- halogen-free

## Note

Form of shipment:

1.2 m rods

Approval:

UR-listed up to size 68,1mm

## Technical data

Temperature range: -55°C up to +110°C

# MfF VASMI - Sleeve for telephone cable

## MfF

Connection and branch sleeve for telecommunication cables. For connecting telecommunication cables and producing cable branch lines for telecommunication cables.

## Application

- Outdoors
- Indoors
- Underground
- Water

## Properties

- high electrical insulation values
- water-tight and moisture-protected
- good mechanical strength
- highly resistant to UV radiation, earth alkalis and chemical influences
- with temperature indicator colour
- suitable for cut and uncut cables
- dismantlable
- unlimited storage

## Scope of delivery

- shield bonding lead with special clamp
- desiccant
- protection inlay
- flame protection film
- shrink-on sleeve
- insulating band
- cleaning agent
- sanding
- assembly instruction

# AV Core connectors for communication and signal cables

## AV core connectors

Core connectors type **AV** connect plastic-insulated telecommunication and signal cable cores. They are characterised by their space-saving and assembly-friendly structure. Satisfy the requirements of DIN 47627 (solder-free core connections in sleeves for telecommunication cables).

When clamping with the **AVZ** tool, the vertical forces are transferred evenly to the core connectors, thus guaranteeing reliable contacting of the copper wires to be processed.

## Properties

- high electrical insulation values
- high mechanical and thermal strength
- impact-proof plastic housing
- corrosion protection through grease charge
- improved contacting through U-contact principle
- core diameters up to 2.0 mm possible
- larger application range from 0.4 - 0.9 mm conductor diameter
- stripping, connection and insulation in one action

## Scope of delivery

Colour: transparent

## Note

The parallel-clamping core binding pliers or equivalent are suitable for flush clamping core connectors.

Use core connection pliers AVZ or equal tool.

# NSVM-S Low voltage heat-shrinkable straight joint

Single core

## NSVM-S (single-core straight joint)

Straight joint for single-core plastic-insulated power cables to 0.6/1(1.2)kV, universal applications for connecting cables and wires made of PVC, PE and VPE, e.g. N(A)YY, N(A)2XY, NYM, NYY.

### Application

- Interior
- Outdoors
- Underground
- Water

### Properties

- halogen-free
- high electrical insulation values
- laterally water-tight
- good mechanical strength
- compact dimensions
- unlimited storage
- large wire and cable cross-sections
- highly resistant to chemical influences, alkaline earths and UV radiation

### Scope of delivery

- inner seal
- outer seal
- illustrated assembly instruction

### Test

According to CENELEC HD 623 (VDE0278,Part623)

### Single core

# NSVM-S Low voltage heat-shrinkable straight joint

Multi core

## NSVM-S (multi-core straight joint)

Straight joint for multi-core plastic-insulated power cables to 0.6/1(1.2)kV, universal applications for connecting cables and wires from PVC, PE and VPE, e.g. N(A)YY, N(A)2XY, N(A)YCWY, NYM, NYY.

### Application

- Indoors
- Outdoors
- Underground
- Water

### Properties

- halogen-free
- high electrical insulation values
- laterally water-tight
- good mechanical strength
- compact dimensions
- unlimited storage
- large wire and cable cross-sections
- highly resistant to chemical influences, earth alkalis and UV radiation

### Scope of delivery

# NSVM-S E90 Low voltage heat-shrinkable straight joint

## NSVM-S E90

Flame-resistant heat-shrinkable low-voltage connecting sleeve. For connection type (N)HX(HX) and (N)HXCHX safety cables wherever specified.

## Application

Power stations, tunnels, airports, elevators, stairways etc.

## Properties

- flame-resistant
- halogen-free
- very low flue gas
- self-extinguishing
- suitable for all installation types

## Scope of delivery

- inner seal
- insulation tube
- outer seal
- illustrated assembly instruction

## Test

DIN4102, part 12,  
draft february 1996 (E90)  
DIN VDE 0472, part 814 (FE 180)  
IEC 332

# MSVM-S Medium voltage heat-shrinkable straight joint

Single core

## MSVM-S

Medium voltage connection sleeve for connecting all single-core plastic power cables with external conductor layer up to 18/30(36)kV.

For connecting cables with different cross-sections, conductor materials and cable designs with regard to external conductor layer and sheathing.

## Properties

- safe field effect
- simple assembly
- large cross-sections
- unlimited conductivity
- immediately operational

## Scope of delivery

- packing unit: 1
- two suspensible silicon control elements
- field effect filler tape (blue)
- thick-walled heat shrink tube
- copper fabric shielding
- heat shrink tube as oversheath
- assembly instruction

## Single core

# MSVM-S Medium voltage heat-shrinkable straight joint

Triple core

## MSVM-S

Medium voltage connection sleeve for connecting all 3-core plastic power cables with external conductor layer up to 18/30(36)kV. For connecting cables with differing cross-sections, conductor materials and cable designs with regard to external conductor layer and sheathing.

Special solutions enable a 3-core plastic power cable to be connected to 3 single-core plastic power cables.

## Properties

- safe field effect
- simple assembly
- large cross-sections
- unlimited conductivity
- immediately operational

## Scope of delivery

- packing unit: 1
- two suspensible silicon control elements
- field effect filler tape (blue)
- thick-walled heat shrink tube
- copper fabric shielding
- heat shrink tube as overshooth
- assembly instruction

# IREV-S Indoor termination, shrink type

## IREV-S

Interior end seals for all single-conductor and three-conductor.

Medium voltage plastic cables with layers and screen designs up to 18/30(36)kV.

## Properties

- safe field effect
- simple assembly
- wide application range
- excellent external layer behaviour
- unlimited conductivity
- immediately operational

## Scope of delivery

- packing unit: 1
- suspensible silicon control element
- sealing band
- creeping current resistant, weather-proof heat shrink tube
- assembly instruction
- suspensible silicone sheds

## Note

- An additional earthing kit is required for cables with copper sheath.
- Without terminals.
- 1 unit = 1 set with 3 items.

# MSVM-A Medium voltage straight-joint with slip-on method

Single core

## MSVM-A

Medium voltage straight-joint with slip-on method for connecting single-core plastic power cables up to 12/20(24)kV. For connecting cables with differing cross-sections, conductor materials and cable designs with regard to external conductor layer and shielding.

## Properties

- quick and simple assembly
- large cross-sections
- unlimited conductivity
- immediately operational

## Scope of delivery

- packing unit: 1
- two suspensible silicon control elements
- one-piece silicon insulating body with integrated conductor smoothing
- thick-walled heat shrink tube
- copper fabric shielding
- assembly instruction

## Single core

# IREV-A, FLEV-A Termination with slip-on method

## IREV-A/FLEV-A

Interior end seals and outside end seals in push-on technology for all single-conductor medium-range voltage plastic cables with differing conductor layers and sheath designs up to 18/30(36)kV.

## Properties

- simple, quick assembly
- large cross-sections
- unlimited conductivity
- no pre-expansion
- no flame or heat source required
- immediately operational

## Scope of delivery

- packing unit: 1
- one-piece suspensible silicon end lock
- integrated field control
- assembly instruction

## IREV-A - indoor termination with slip-on method

# Medium voltage accessories

## Medium-range voltage accessories

**KMRS:** for a fast, reliable repair of sheath damage up to 1000 V. Consisting of cable sheath repair tape, emery cloth, cleaning cloth.

**Sealant:** for cable penetration, halogen-free dual-component PUR cast resin, practical dual chamber mixing bag.

**Sealing tape, black:** for sealing of cable and wire gussets, repair of damaged cable sheaths, water-tight sealing of cable penetrations.

## Properties

**KMRS:** vulcanising, extremely good electrical properties; outstanding tensile strength, absolute moisture tight.

**Sealant:** good adhesion to metals, plastic, concrete, plastic and natural stones; removable, environmentally compatible, gas and water-tight to 1.5 bar, soft-elastic following hardening.

**Sealing tape:** very good adhesion to metal, glass, rubber, plastic, good dielectric and physical properties.

### KMRS repair set

# Medium voltage accessories

## Medium-range voltage accessories

**HSIB, black:** as conductor insulation for plastic-insulated cables to 69kV, repair and connection of numerous insulating and cable materials, for sealing casting moulds and stuffing cable insulation.

**Cable warning tape, yellow with black marking:** used as an early warning device for excavation work. It should be placed approx. 40 cm above the supply cable, PE laminated film.

## Properties

**HSIB:** good electric and physical properties guarantee long tool life, good dielectric properties, highly weather-resistant, extremely expandable, non-adhesive, welds quickly to form homogenous, cavity-free mass, easy to handle, easy to process, completely removable.

**Cable warning tape:** Good warning effect through more than 400% expansion, colour-fast, age and cold-resistant, expansion remains unchanged, permanently legible through crystal clear film coating over lettering.

## HSIB high voltage insulation tape

Part no.	Type	Description	Thickness x Width mm x mm	Content	Unit	Net EUR/item at a purchase of

## KW plastic helix

Plastic helix made of polyethylene.  
Protects wiring harnesses, wires and conductors.  
Bundles and binds single wires and provides mechanical protection for loosely installed or moving cables and wires.

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material

Polyethylene

- halogen-free

## Note

# TY-RAP® Cable tie with steel lug lock

## TY-RAP® transparent

Cable tie with steel lug lock made of corrosion-resistant, non-magnetic steel. This technology enables the cable tie to offer excellent binding properties even under most rigorous conditions such as heat, cold, humidity etc. It is impervious to vibrations and external influences.

## Material

Polyamide 6.6

- halogen-free

## Note

Brown, red, orange, yellow, green, purple or grey available on request.

## Technical data

Temperature range: -60°C up to +85°C

Flammability acc. to UL 94: V2

# TYZ Cable tie with steel lug lock

## TY-RAP®

Cable tie with steel lug lock made of corrosion-resistant, non-magnetic steel. This technology enables the tie to offer excellent binding properties even under the most rigorous conditions such as heat, cold, humidity etc. It is impervious to vibrations and external influences.

## Material

ETFE Fluoropolymer  
UV-resistant

- halogen-free
- silicone-free

## Technical data

Temperature range: -60°C up to +170°C

Flammability acc. to UL 94: V0

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## High resistant

# TY-RAP® Detectable cable ties

## TY-RAP® Detectable cable ties

- Detectable by metal detectors set at minimum 1.5mm diameter ferrous sphere
- Detectable by X-Ray equipment
- Bright blue colour for an easy visual detection
- Help achieve the HACCP EU-Directive, compliant to the FDA regulation
- For liquid-processing applications

## Material

- halogen-free

## Note

- Available versions:
- PA 6.6
  - Polypropylene

## Technical data

Temperature range: -40°C up to +85°C

Flammability acc. to UL 94: V2

# T-SK/SKU Cable tie with steel lug lock

## T-SK

Cable tie with steel lug made of corrosion resistant, non-magnetic steel for bundling and mounting cables and lines etc.

## Material

Polyamide 6.6

- halogen-free
- silicone-free
- self-extinguishing

## Technical data

Temperature range: -40°C up to +85°C

Flammability acc. to UL 94: V2

## Properties

- High requirements to flexibility and resistance, also at low temperatures and dry climate
- High tension due to extra wide steel lugs

## T-SK

# E Cable tie

Stainless steel

## Cable tie

Cable tie made of stainless steel with ball lock for use in extreme conditions, such as high temperatures, aggressive environment, high tensile load.

## Material

Stainless steel 1.4401 / AISI 316

## Technical data

Temperature range: -80°C up to +538°C

## Properties

Corrosion and radiation resistant, anti-magnetic, resistant to high temperatures and aggressive chemicals

## Note

Approvals: GL, DNV, Lloyd's, UL

# KLL / KLÖ Hook and loop cable tie

## Velcro tie

Particularly suited for sensitive cables and wires that are to be bundled or fastened without kinking or pinching. Velcro binders exert only low pressure on the wires and lie evenly and flush. Suitable for up to 10,000 actuations in reusable bundling applications.

## Material

KLL - Polyamide sleeve / PE mushroom head tape / with punched hole

## Note

KLL – pre-punched on rolls  
KLÖ – Packed small in poly bags

## Technical data

Temperature range: -40°C up to +85°C

### KLL with punched hole

# BS Mounting base

## BS

BS mounting base self-adhesive and screwable for installing cables, wires, tubes and pipes. Simple handling by the combination with cable ties.

## Application

- Plant and machine construction
- Robotics
- Automation technology
- Vehicle construction and shipbuilding
- Railway technology
- Installation technology
- Control cabinet construction

## Material

Polyamide 6.6

Colour: transparent

## Note

Foamed self-adhesive foil adheres to smooth and grease-free surfaces and smooths out slightly uneven surfaces.

## Technical data

Temperature range: -40°C up to +85°C

## As adhesive base

Part no.	Type	Size l x w	Cable tie max. width mm	Drill hole mm	Unit	Net EUR/100 items at a purchase of

# KROV Marking rings

## KROV

Marking rings, open  
 Anti-rotation element  
 Excellent readable  
 Secure positioning through barbed hook  
 Quick installation - let it easily snap-in  
 Delivery colour white or yellow with black marking  
 Pressure: hot stamped

## Material

PVC  
 • Cadmium-free  
 • Silicone-free  
 • UL94V0

## Technical data

Temperature range: -30°C / +60°

## Notes

Replace XX with the number of your required letter, figure or symbol. please see marking rings page 371. Packaging in polybag.

# KME Cable marker + KTE Carrier strip

## KME/KTE

Cable marker for extreme conditions  
Easy mounting with stainless steel-  
cable ties  
Symbol combinations can be created  
by assemble the individual components

Pressure: stamped (embossed)

## Material

Stainless steel

## Technical data

Not flammable

## Notes

Replace XX with the number of your  
required letter, figure or symbol. please  
see marking rings page 371.

Suitable product: Cable tie series E item  
no. 90900 to 90907.

## Dimensions

### Stainless steel marker KME

Item no:	Type	Length in mm	Height in mm	Unit	Net EUR/100 piece

Example: Item number 95435 indicates ring type SR 09, letter „F“ in yellow.

# E WM Cable marker

## E WM

Self-adhesive cable marker in practical pocket book size.

10 side marker on siliconised carrier cards. Installation applications, for repair and maintenance.

Book dimension: 15 x 8 cm

Marker: 5 x 31 mm

Perforated individual characters, 5 x 5 mm

## Material

Fibre tape

self-adhesive

Covering: carton

## Properties

Permanently self-adhesive, insensitive to moisture and oils.

## Technical data

Temperature range: -35°C up to +95°C

## Cable marker

Part no.	Type	Book content	Marker	Unit	Net EUR/ 100 items at a purchase of

## TM

Self-adhesive, writable cable marker in practical pocket book size.  
10 side marker on siliconised carrier cards.  
Installation applications, for repair and maintenance.  
Book dimension: 15 x 8 cm

## Material

PVC  
self-adhesive  
self-extinguishing  
UV-resistant  
oil-resistant

Adhesive: acrylate  
Covering: carton

## Properties

Resistant to:

- Water
- Alcohol
- Oils
- Greases
- Fuels
- Aliphatic solvents
- Weak acids
- Salts
- Alkalis

## Technical data

Temperature range: -40°C up to +80°C  
Temperature range temporary up to +120°C

# PV-cable coupler and MC4 Coupling connector

# PV-male and female cable coupler MC4

## PV- male and female cable coupler MC4

With Snap-in lock

## Material

Polyamide  
Contact: Cu, tinned, rotated

## Technical data

Protection classification: IP 67  
Safety class: II  
Temperature range: -40°C up to +90°C  
Rated voltage: 1000 V (IEC)  
Rated current: 22A (2,5 mm<sup>2</sup>), 30A (4 mm<sup>2</sup>, 6 mm<sup>2</sup>)  
Contact resistance of plug connectors:  
0.35 mOhm

### ADI

Insulated core end sleeves prevent stripped wires from fanning. The hopper-shaped plastic collar enables them to be pushed easily onto the wires. To DIN, ZF, and Telemecanique colour code.

### Material

Socket: Copper  
Surface: tinned

Insulating shroud: polypropylene

### Technical data

Temperature range: up to +105°C  
Temperature range temporary up to +120°C

### Note

Assignment to cable cross section according to DIN 46228: up to 50mm<sup>2</sup> to nominal size and DIN color code - over 50mm<sup>2</sup> no specification; Assignment to suitable size possible.

# ADI-B Core end sleeves

Insulated

## ADI-B

Tape products for processing with Stripax-Plus (strip products) or automatic crimpers (coil products).

Insulated core end sleeves prevent stripped wires from fanning.

The hopper-shaped plastic collar enables them to be pushed easily onto the wires.

## Material

Socket: Copper  
Surface: tinned

Insulating shroud: polypropylene

## Note

Delivery formats:  
Strips: 1 item = 10 strips x 50 pcs.  
Coils: Endless on cardboard coil

## Technical data

Temperature range: up to +105°C  
Temperature range temporary up to +120°C

## Dimensions

# ■ INSTALLATION METHODS AND PROCEDURE

## SHIELD-KON® ONE-PIECE CONNECTOR

### Processing method

#### Standard method

Use the standard method when the shielded cable or the inner conductors are embedded in a dielectric.

#### “Fold-back” – Method 1

If there is no common dielectric for several interior cables but the gaps are filled by textile threads or something similar, care should be taken to ensure that the insulating thickness of the individual cables is not less than 0.38 mm for PVC, and not less than 0.25 mm for Teflon. If this insulation thickness falls below this value, fold-back method 1 should be used.

#### “Mid-Span” – Method

Allows installation anywhere along the cable.

#### “Fold-back” – Method 2

Fold-back method 2 should be used if the cable shield is applied spirally or if a foil shield is being used.

### Installation procedures

#### Step 1

Prepare shielded wire and drain wire insulation as shown. If two earth wires are required, twist both conductors before insertion into the connector.

#### Step 2

Select the appropriate connector according to the size of the shielded cable. Adjusting the tool is not necessary. Place the 11 mm insulated drain wire around the trap hook and the shielded wire into the bottom of the connector.

#### Step 3

Squeeze the tool handles firmly to crimp the connector around the shielding and the drain wire.

Connector opening faces away from tool

# Shield Kon® RSK Shield connectors

## Shield Kon®

Shield connectors are crimped like a cable lug. The special crimping technique using ERG tools enables the connector to roll around the sheath. Inside the connector is a clevis-type connector for the connector strip and a support for the sheathed cable.

ERG 740 processing tool

## Material

Copper  
Surface: tinned

Insulation: Polyester film

## Note

Processing tool ERG and the matching inserts see chapter "Tools".

Processing method see chapter "Technical information".

# Solderless terminals

Insulated - eye type

## Insulated solderless terminals

PA insulated solderless terminals for cross sections of 0.1 to 16.0mm<sup>2</sup>. Simple cable inlet through Easy-Entry (expanded sleeve). Insulated with high dielectric strength.

## Material

Socket: Copper  
Surface: tinned

Insulation: partially-insulated

## Technical data

Temperature range: -60°C up to +125°C

## Dimensions

- a Diameter of the boring
- d Inner diameter of the cable insertion
- b Flange width
- l Length till middle of the boring

## Eye type

# Solderless terminals

Insulated - tape product

## Solderless terminals, tape product

Polycarbonate-insulated connection material on tape has been developed as a cost-effective solution for medium and large pre-fabricated cables.

## Material

Socket: Brass  
Surface: tinned

Insulation: partially-insulated

## Note

Roll diameter 450mm  
Inner diameter of inclusion 27mm  
Blade terminal / blade receptacle / pin-type cable lug on tape on request.

## Technical data

Temperature range: -20°C up to +115°C  
Temperature range temporary up to +130°C  
Self-extinguishing acc. to UL 94 V0

# HELU-S-RK-CU Copper tubular cable lug - straight

Not insulated

## Tubular cable lug HELU-S-RK-CU

Uninsulated, straight tubular cable lugs in eye type design.

## Material

Socket: Copper according to DIN EN 13600  
Surface: tin plated

## Note

Also available in angulated version (45° and 90°).  
Compression instruction and instruction for assembly see chapter "Technical information".

## Technical data

Temperature range: up to +120°C

## Abmessungen

- a Diameter of the boring
- d Inner diameter of the cable insertion
- b Flange width
- l Length till middle of the boring

# HELU-S-RK-45-CU-UL Copper tubular cable lug - 45° angled

## Tubular cable lug angled HELU-S-RK-45-CU-UL

Non-insulated tubular cable lugs in eye type design, 45° angled.

### Material

Socket: Copper according to DIN EN 13600  
Surface: tin plated

### Note

Compression instruction and instruction for assembly see chapter "Technical information".

### Technical data

Temperature range: up to +120°C

### Dimensions

- a Diameter of the boring
- d Inner diameter of the cable insertion
- b Flange width

### Eye type

# HELU-S-RK-90-CU-UL Copper tubular cable lug - 90° angled

## Tubular cable lug angled HELU-S-RK-90-CU-UL

Non-insulated tubular cable lugs in eye type design, 90° angled.

### Material

Socket: Copper according to DIN EN 13600  
Surface: tin plated

### Technical data

Temperature range: up to +120°C

### Note

Compression instruction and instruction for assembly see chapter "Technical information".

### Dimensions

- a Diameter of boring
- d Inner diameter of the cable insertion
- b Flange width

### Eye type

# HELU-S-RK-S-CU-UL Tubular cable lug - straight - small flange

Not insulated

## Tubular cable lug HELU-S-RK-S-CU-UL

Non-insulated tubular cable lugs in eye type design with small flange.  
For screwing in switch cabinets with reduced connecting space.

## Material

Socket: Copper  
Surface: tinned

## Note

Compression instruction and instruction for assembly see chapter "Technical information".

## Dimensions

- a Diameter of the boring
- d Inner diameter of the cable insertion
- b Flange width
- l Length till middle of the boring

# HELU-S-RK-F-CU Tubular cable lugs for fine stranded wires - straight

Not insulated

## Tubular cable lug HELU-S-RK-F-CU

Uninsulated, straight tubular cable lugs in eye type design for fine stranded wires. The expanded sleeve facilitates cable inlet.

## Material

Socket: Copper according to DIN EN 13600  
Surface: tin plated

## Technical data

Temperature range: up to +120°C

## Note

Compression instruction and instruction for assembly see chapter "Technical information".

## Dimensions

- a Diameter of the boring

# HELU-S-PK-CU Tubular compression cable lugs - straight

Not insulated

## Tubular cable lugs HELU-S-PK-CU

Non-insulated tubular cable lugs in eye type design for conductor arrangement RM. Tube dimensions to DIN 46235.

## Material

Socket: Copper according to DIN EN 13600  
Surface: tin plated or optionally uncoated

## Note

Code type indicates the required hexagonal clamping insert.  
Compression instruction and instruction for assembly see chapter "Technical information".

## Diameter

- a Diameter of the boring
- d Inner diameter of the canle insertion
- b Flange width
- l Length till middle of the boring

## Eye type

# HELU-S-PK-AL-DIN Tubular compression cable lugs

uninsulated

## Compression cable lug HELU-S-PK-AL-DIN

Uninsulated, straight tubular cable lug in eye type design made of aluminium. High quality version for reliable crimping. Designed for conductor type RM acc. to DIN 48201 and circularly reshaped conductors.

## Material

AL 99,5  
Surface: bare

## Note

Code type indicates the required hexagonal crimping insert.  
Sleeves are prefilled with contact grease and sealed with plastic plug  
Compression instruction and instruction for assembly see chapter "Technical information".

## Dimensions

- a Diameter of the bore
- d Inner diameter of the cable inclusion
- b Flange width
- l Length to middle of the bore

# HELU-S-PK-AL/CU Aluminium / Copper compression cable lug – straight

## Compression cable lug HELU-S-PK-AL/CU

Non-insulated, straight compression lug in eye type design made of aluminium. High quality version for reliable crimping. Designed for conductor type RM and circular reshaped conductors.

### Material

Socket: Al 99,5 and Cu acc. to DIN EN 13601  
Surface: bare

### Note

Code type indicates the required hexagonal crimping insert.  
Al-sleeves are prefilled with contact grease and sealed with plastic plugs  
Compression instruction and instruction for assembly see chapter "Technical information".

# HELU-S-PV-AL-DIN Aluminium press connector

## Press connector HELU-S-PV-AL-DIN

Press connector for strain-relieved connections of conductors designed acc. to DIN 46267 part 2.

## Material

Socket: Al 99,5  
Surface: bare

## Note

- Code type indicates the required hexagonal crimping insert.
- Part No. 907835 is not standardized.
- Sleeves are prefilled with contact grease and sealed with plastic plug.

## Technical data

Temperature range: up to +120°C

## Dimensions

d Inner diameter of the cable inclusion  
l Length

## Bare

# HELU-S-PV-AL/CU Aluminium / Copper press connector

## Press Connector HELU-S-PV-AL/CU

Press connector for aluminium conductors, strain relieved

## Material

Socket: Al 99,5 and Cu acc. to DIN EN 13601  
Surface: bare

## Note

Al-sleeves are prefilled with contact grease and sealed with plastic plug.

## Technical data

Temperature range: up to +120°C

## Dimensions

- d1 Inner diameter of the cable inclusion, copper side
- d2 Inner diameter of the cable inclusion, aluminium side
- l Length

# HELUTOOL HKS 1 Cable shear

## Cable shear HELUTOOL HKS 1

High quality cable shear for cutting finewire stranded Cu- /Al-wires

- Blade made of special stainless steel according to EN10020
- Ergonomical and extremely robust
- High cutting performance
- Loose-free screw/pin fixing
- 2-component-handles
- With special safety box
- Cutting area:
  - Straight blade area 0,5-6mm<sup>2</sup>
  - Integrated cable cutter up to 50mm<sup>2</sup>
- Length: 150mm
- Weight: 0,17g

## Scope of delivery

Cable shear HKS 1, Safetybox

Part no.	Type	Unit	Net EUR/ item at a purchase of		
			1	2 - 4	5 - 10
908229	HKS 1	1	o. r.	o. r.	o. r.

Dimensions and specifications may be changed without prior notice.

o. r. = on request

# HELUTOOL HKS 35 Cable shear

## Cable shear HELUTOOL HKS 35

High quality forged cable cutter for cutting stranded aluminium and copper cables up to 35mm<sup>2</sup>.

Long life cycle, low efforts during cutting and a clean round cut characterize this cable cutter.

- For cutting cables with outer diameters up to 11mm.
- Forged
- Tempered blade with precise finish
- Burnished
- Plastic coated handle
- Length 165mm
- Weight 200g

Part no.	Type	Unit	Net EUR/item at a purchase of		
			1	2 - 4	5 - 10
907602	HKS 35	1	o. r.	o. r.	o. r.

Dimensions and specifications may be changed without prior notice.

o. r. = on request

# HELUTOOL D20 Cable shear

## Cable shear HELUTOOL D20

- VDE approved, 1000V
- For cutting copper and aluminium cables, single and multi-core
- Low handforce required due to favourable lever ratio and special blade geometry
- Clean and smooth cut without crushing and deformation
- Initial and final cut (upper and lower blade)
- Allows cables of up to 20 mm dia. to be cut
- With guard
- Handles plastic coated
- Precision ground , hardened blades
- Adjustable bolted joint, self-retaining screw
- High-grade special tool steel, forged, oil-hardened
- Length 200 mm
- Weight 340 g

Part no.	Type	Unit	Net EUR/item at a purchase of		
			1	2 - 4	5 - 10
904933	HELUTOOL D20	1	o. r.	o. r.	o. r.

Dimensions and specifications may be changed without prior notice.

o. r. = on request

# HELUTOOL HKS 32 Cable shear

## Cable shear HKS 32

- For cutting stranded Al- and Cu-cables, single and multi-core
- Cutting ranges up to 32mm
- The cutting blades consist of a hardened special tool steel
- Length 600 mm
- Weight 1500 g

## Note

Not applicable for cutting steelwires, cables with steel-insertion and solid conductors.

Part no.	Type	Unit	Net EUR/item at a purchase of		
			1	2 - 4	5 - 10
907603	HKS 32	1	o. r.	o. r.	o. r.

Dimensions and specifications may be changed without prior notice.

o. r. = on request

# HELUTOOL HKS 34 S Cable cutter

## Cable Cutter HKS 34 S

Very robust and smooth running cable cutter for cutting stranded aluminium and copper cables.

- Up to 4x70mm<sup>2</sup> approx. 1x185mm<sup>2</sup>
- For finewiring conductors up to 34mm outer-diameter
- Double needle beared and excentric drive combined with a special blade design guarantees the excellent efficiency of this cable cutter
- Length: 250mm
- Weight: 0,9kg

## Note

Not applicable for cutting steel-wires, cables with steel-insertion and solid conductors.

Part no.	Type	Unit	Net EUR/item at a purchase of		
			1	2 - 4	5 - 10
908053	HKS 34 S	1	o. r.	o. r.	o. r.

Dimensions and specifications may be changed without prior notice.

o. r. = on request

# HELUTOOL HKS 52 S Cable shear

## Cable cutter HKS 52 S

Very robust and smooth running cable cutter for cutting stranded aluminium and copper cables.

- Up to 4x120mm<sup>2</sup> approx. 1x300mm<sup>2</sup> and finewiring conductors up to 52mm outside-diameter
- Double, needle bared and patented eccentric drive combined with a special blade design guarantees the excellent efficiency of this cable cutter.
- Length: 325mm
- Weight: 1,2kg

## Note

Not applicable for cutting steel-wires, cables with steel-insertion and solid conductors.

Part no.	Type	Unit	Net EUR/item at a purchase of		
			1	2 - 4	5 - 10
907605	HKS 52 S	1	o. r.	o. r.	o. r.

Dimensions and specifications may be changed without prior notice.

# Electricians scissors For screened cables and wires

## Electricians scissors

- Cuts copper braid shielded cables and wires
- Clean cut with serrated edge
- With round wire cutter
- Very stable version
- Cut from special stainless steel, nickel plated
- Handy
- Length 125 mm
- Weight 65 g

## Electricians scissors

Part no.	Type	Unit	Net EUR/item at a purchase of		
			1	2 - 4	5 - 10
905120	Electricians scissors	1	o. r.	o. r.	o. r.

# HELUTOOL HKM 1 Cable stripping knife

## Cable stripping knife HKM 1

- With special grinding. The special blade prevented a damage of the conductor. The knife has a blade protection, sinking into the handle
- The changeable blade is made of stainless steel according to DIN EN 10020, hardness minimum 50 HRC
- High-quality, ergonomically formed handle is out of impact plastic (PA)
- Admission of the VDE up to 1000 volt according to EN/IEC 60900:2004 and GS-sign
- Length: 200 mm
- Weight: 0,1 kg

## Note

Spare blade with moulded plastic insert for HKM 1, part no. 906246

## Cable stripping knife HKM 1

Part no.	Type	Cross-section mm <sup>2</sup>	Unit	Net EUR/item at a purchase of

# HELUTOOL HAM 1 Skinning tool

For round cables

## Skinning tool HAM 1

- For PVC-insulated round cables and a plurality of PUR-insulated cables up to 25mm Ø.
- Suitable for longitudinal and round section. The depth of the cut is adjustable from 0 to 5mm. The cutting blade can be used double-sided.
- Length: 50 mm
- Weight: 0,16 kg

## Note

Replacement cutting blade for HAM 1, Part 906234

## Scope of delivery

HAM 1 incl. plastic box

## Skinning tool HAM 1

## Stripper Multistrip 10

- Self adjusting
- For single and multi-core lines made of PVC, rubber etc.
- Adjustable stripping length up to 18mm
- Robust metal clamps
- Ergonomic two-component handle
- Length 195 mm
- Weight 200 g

### Stripper

# HELUTOOL HWW 6/50 Crimping tool

## Crimping tool HWW 6/50

- Crimping tool for crimping tubular cable lugs and connectors of the HELU-S-RK tubular cable lugs and HELU-S-SV tubular butt connectors - series
- Application range: 6 up to 50mm<sup>2</sup>
- Cross section can be adjusted by turning the in-built revolving dies
- No need of changing dies
- Tool points by small measurements, light weight and an extremely high crimping quality due to WM-crimping
- Length: 380 mm
- Weight: 1,3 kg

Part no.	Type	Cross-section min. - max. mm <sup>2</sup>	Unit	Net EUR/item at a purchase of		
				1	2 - 4	5 - 10

# HELUTOOL HMPI 20 Mechanical hand press in toolbox

## HELUTOOL HMPI20 Hand-operated mechanical compression tool in toolbox

Hand-operated mechanical compression tool for crimping cable lugs and connectors up to 300mm<sup>2</sup>

- Light and compactly construction form
- Universal usage: dies for all versions of cable lugs are available
- 360° revolving head with quick opening and closing
- Continuous moveable telescopic handle
- Press force: approx. 60 kN
- Length: 560 up to 830 mm
- Weight: 3,6 kg

### Note

Exclusive inserts

Matching inserts:  
HELU-S-PE-SK and HELU-S-PE-WM  
Further inserts available on request

### Scope of delivery

Including plastic toolbox

Part no.	Type	Cross-section min. - max. mm <sup>2</sup>	Unit	Net EUR/item at a purchase of

# HELUTOOL HHPI 20 Hydraulic hand press in toolbox

## HELUTOOL HHPI 20 Hydraulic hand press in toolbox

- Extremely fast operation through two-stage hydraulic pump
- Large processing area up to 300mm<sup>2</sup>
- Rotatable quick release head 180 °
- With folding clasp for effortless operation even in hard reach places
- Lightweight and portable, compact design
- Built-in pressure relief valve, even in the case of a false pressing no damage to the tool and inserts
- Universally applicable: inserts are available for all cable lug types
- Press force: ca. 62kN
- Length: 396 mm
- Weight: ca. 2,8 kg

### Note

Exclusive inserts  
Matching inserts:  
HELU-S-PE-SK and HELU-S-PE-WM  
Further inserts available on request

# HELUTOOL HAP 60-2 Battery-powered hydraulic tool in toolbox

## HELUTOOL HAP 60-2 Battery hydraulic tool in toolbox

- For processing cable lugs and connectors up to 300mm<sup>2</sup>
- Quick infeed due to doublee piston hydraulic system
- Variable speed for placing the tool
- Ergonomic design for effortless work
- Easy to service and compact design
- Two-piece component handles with optimal weight distribution
- Powerful Li-Ion battery 18 V
- LED to illumination of the workspace
- Crimping area: 6-300 mm<sup>2</sup>
- Press force: ca. 60 kN
- Head rotation: 360°
- Opening range: 17 mm
- Battery voltage: 18 V
- Weight incl. battery: approx. 4,4 kg
- Tool dimensions: 330 x 331 x 75 mm

## Note

Exclusive inserts

Matching inserts:  
HELU-S-PE-SK and HELU-S-PE-WM

# HELUTOOL MZ Circlip pliers

## HELUTOOL MZ

Assembly pliers for cable glands

- Fast and reliable installation of cable glands
- Automatic progressively adjustable size of the jaw
- Ratchet-like function with pivoting angle 60°
- With fixed adjustment for continuous working
- Good applicable even in constricted working areas
- Stable for professional use
- Extremely handy
- Two-components-plastic handles

### Circlip pliers

# ERG 50, ERG 120 Circlip pliers for cable ties made of plastic

## Assembly tool for plastic cable ties ERG50 / ERG120

Ergonomic hand tool with adjustable tension setting and automatic cutting. 360° degree rotating nose enables operation from any position. An impact damper absorbs the rear shocks, that occur when cutting the tie ends.

- Adjustable tension settings
- Automatic cutting mechanism
- Length 200 mm
- Height 25 mm
- Width 125 mm
- Weight 240 mm

# HELUTOOL SZ Screw pliers

## HELUTOOL SZ

The patented 2-component screw pliers that have been awarded with the Design Prize is the ideal solution for embedded, dirty or corrosion-damaged screws.

In addition, the pliers consist of a single joint with induction hardened precision blade. Arched, horizontally and vertically ridged gripping surface, for all self-tapping or metric screws from M2 to M6.

The special head shape of the pliers securely surrounds the screw head, thus loosening the screw which can no longer be removed with conventional tools.

- Size: 160 mm
- Weight: 140 g
- Handle: 2-component precision blade
- Induction-hardened precision blade with single joint
- Compatible with the screw size M2 to M6

Part no.	Type	Unit	Net EUR/item at a purchase of		
			1	2 - 4	5 - 10

# HELUTOOL HAM 1 Skinning tool

For round cables

## Skinning tool HAM 1

- For PVC-insulated round cables and a plurality of PUR-insulated cables up to 25mm Ø.
- Suitable for longitudinal and round section. The depth of the cut is adjustable from 0 to 5mm. The cutting blade can be used double-sided.
- Length: 50 mm
- Weight: 0,16 kg

## Note

Replacement cutting blade for HAM 1, Part 906234

## Scope of delivery

HAM 1 incl. plastic box

# Outside cleading cutter HAMX

With rapid clamping system for low voltage- and medium voltage conductors

## Outside cleading cutter HAMX

The outside cleading cutter with rapid clamping system can be used to strip the outer sheath from low voltage and medium voltage conductors with an outside diameter of 16 up to 54 mm.

A switch lever between longitudinal section and round cut as well as an additional claw for breaking the insulation are available. The positioning on the cable is made by a clamping system. The cut depth is adjustable from 0-5 mm in steps of 0,1 mm. The feed rate is made by a ratchet wrench. The maximum rotation diameter is 300 mm.

The components are produced from aluminium and stainless steel. The moldings are made of impact-resistant plastic material. The blades are from alloyed steel according to EN 10020 with a hardness of least 58 HRC.

Weight: 1,32 kg

## Note

Spare blade with screw and hex-wrench for HAMX, part no. 906236

## Scope of delivery

HAMX-device, ratchet wrench and nylon case

## Outside cleading cutter HAMX

# Cable stripper for vulcanized semi conductive layer HFBS

For stripping the vulcanized semi conductive layer

## Cable stripper for vulcanized semi conductive layer HFBS

The device is for stripping the vulcanized semi conductive layer of low voltage and medium voltage conductors. The maximum layer thickness is 1,5 mm. The stripper can be used for insulation diameter of 10 up to 52 mm. The positioning on the cable is made by a clamping system. The stripping process can be started and stopped in every position of the cable. A switch lever to activate/inactivate the axial traverse speed is available. The device has optimum gliding properties through coated contact surfaces. The maximum rotation diameter is 200 mm.

The components are made of aluminium, steel and brass, with anodized, chromium-plated and nickel-plated surfaces. The form parts are of impact resistant plastic. The blades are from alloyed steel with a hardness of least 55 HRC.

Length: 170 mm

Weight: 0,79 kg

## Note

- Spare blade 17° for HFBS, part no. 906238
- Spare tube silicone paste 100ml, part no. 906239

## Scope of delivery

HFBS-device, silicone paste, allen wrench 2,5 mm, plastic case

# Inside cleading cutter (universal) HIMS II

For medium voltage conductors

## Inside cleading cutter (universal) HIMS II

- The inside cleading cutter HIMS II can be used for stripping-off the primary insulation on the ends of medium voltage conductors of 6 up to 45 kV with outside diameters of 15 up to 52 mm and a maximum insulation thickness of 15 mm.
- The positioning on the cable is made by a clamping system. Spiral and circle cuts are possible. The cut depth is adjustable of 0 up to 15 mm and the feed rate is selectable in 5 steps. The stripping can be stopped in every position of the cable. The stripping length is unlimited. The device has optimum gliding properties through coated contacts surfaces. The maximum rotation diameter is 220 mm.
- The components are made of aluminium, steel and brass, with anodized, chromium-plated and nickel-plated surfaces. The blades are from alloyed steel with a hardness of least 55 HRC.
- Length: 170 mm
- Weight: 1 kg

## Note

- Spare blade for HIMS, part no. 906241
- Spare tube silicone paste 100ml, part no. 906239

## Scope of delivery

HIMS II device, silicone paste, allen wrench 2,5 mm, plastic case

# Chamfer cutter HUFS

For medium voltage conductors

## Chamfer cutter HUFS

- Chamfer cutter HUFS is for chamfering the primary insulation of medium voltage conductors with outside diameter from 15 up to 60 mm.
- Positioning on the cable is made by a clamping system. The device has PTFE-plates for optional gliding properties on the cable. A silicone paste is not necessary.
- Size of the chamfer: 2 mm x 60°
- Maximum rotation diameter is 220 mm
- The device is light and has a robust construction form. The components are made of aluminium and steel. The blades are from alloyed steel with a hardness of least 55 HRC.
- Length: 145 mm
- Weight: 0,39 kg

## Note

Spare blade for HUFS, part no. 906243

Selection Guide	<b>495</b>

# ■ HELUTEC® – THREE TECHNOLOGIES FOR EASY HANDLING

**EMV**  
**IP 66/67**  
**20G-**  
Vibration-resistant

**EMV**  
**IP 66/67**  
**20G-**  
Vibration-resistant

## The innovative HELUTEC® system

This sensational, quick fastening connector is safe and stable while saving time and installation costs. The vibration resistant lock mechanism was perfected for plug connectors sizes M17, M23 and M40, which can be found in the HELUTEC® series 617, 917, 623, 723, 923 and 940. The HELUTEC® angle junction boxes can be easily combined at any time with the HELUTEC® system or with standard lock nuts. This also addresses the issue of downward compatibility. Slide it on and rotate for a tight fit. Patented perfection included.

## The Patented Special Development for the HELUTEC® Series 615/915

Fits in tight locations. In areas with limited space, just wind the pre-tensioned lock nut before sliding the nut into the lock position. A small rotation with a little pull at the plug releases the lock nut preventing an unintended release of the vibration resistant quick fastener. Only a quarter turn and a slight pull on the connector is required to disconnect. The connection is absolutely vibration proof. This was specially developed and patented for the HELUTEC® series 615/915.

## The freely customizable connector

Bonded for life. Once the connector housing and the shell are united in the assembly process they can not be separated anymore. This provides the required manipulation security for customized units - a design that is normally only available for cast versions. All commercially available cables at any length can be connected to the inner section of the robust metal housing. This is for both options: Standard screw connections or those items that include a patented fast lock system. For almost any pin design.

## ■ HELUTEC® – FUNCTIONAL DESIGN FOR HARSH ENVIRONMENTS

### Frost protection down to -50 °C

A cool thing: HELUTEC®-connectors are temperature-resistant way down below freezing point. It is therefore predestined for special tasks in extreme climate zones, where they work without failure and fail-safe. The electric and mechanic values remain unimpressed. Even if it heats up: the connectors do not have a problem with 130°C, they stay cool. Also in smallest sizes available - they withstand harsh conditions and keep their unique design.

### Protection classification IP 66/67 & 69K

Perfect for wetlands: Generally all HELUTEC® connectors are protected against water spray and temporary immersion. Every cable assembly with connector and cable strand is IP 66/67 protected. For special applications such as in water and/or steam, they can additionally qualified acc. to IP 69K. To fulfil the requirements of this highest protection classification and to guarantee unlimited safety, the cable clamp is fine tuned to the relevant cable. Even if standard screw connectors or HELUTEC® system – the robust metal housing with integrated EMC screening withstands extremely moistures.

### Protection classification IP 68

Working under pressure: The special HELUTEC® series 615/915 are also capable of long-term missions under water. Even permanent immersion of about 120 hours at 15 meter under water with 1.5 bar pressure do not cause any problems, as tests have shown. Reward of these efforts: the qualification of both series acc. to protection classification IP68.

## ■ HELUTEC® – SERIES 617 / 623 / 627 SIGNAL CONNECTORS – CONTROLLING – MONITORING

Stable, versatile, safe: HELUTEC® series can be found where a safe connection is required within a limited installation space. The plug connectors in the 617, 623 and 627 series are designed especially for extra-low voltages, and are used in any application that transmits signals, controls motors or monitors the smooth functioning of a system.

For this purpose, a multitude of multi-pin insulation bodies - matching a variety of different designs such as plugs, couplings and flush-mounted boxes - are available for the user. Consequently, HELUTEC® engineers are able to handle a multitude of customer-specific connector requirements in a very innovative way.

### Properties:

- Drive systems
- Robotics
- Mechanical engineering
- Automation mechatronics
- Medical technology
- Packaging and Printing
- Aerospace
- Equipment construction machinery
- Railway technology
- Shipbuilding
- Renewable energies
- Lightning, sound and stage equipment
- Food industry
- Textile industry

Technical data, please see selection table for signal and power / hybrid on page 519.  
For detailed information and our online configurator, please see [www.helukabel.de](http://www.helukabel.de)

## ■ HELUTEC® – SERIES 917 / 923 / 932 / 940 / 958 POWER PLUG CONNECTORS – STRONG AND SAFE

Extremely resilient: HELUTEC® power plug connectors accelerate torque heavy drive motors, spindle drives and servo motors reliably up to the highest rotational speeds while tolerating millions of abrupt starts and stops. Voltages up to 630 V and currents of up to 200 A are transferred reliably even in continuous operation and under the most demanding conditions. Cable cross sections of up to 50 mm<sup>2</sup> and the smallest possible designs are - depending on the application - part of the scope of delivery as well as a perfect EMC shielding for the highest operational and work safety.

Strong vibrations and sudden stops have no impact on these plug connectors in day-to-day operations, neither do heat, cold, moisture, dust and dirt.

All high performance connectors are tested in the test lab to safeguard the long-term durability in the field (up to 50 G). Besides special stress tests, individual customer requirements are analysed in terms of adjustments to the installation situation and integrated system solutions.

### Properties:

- Drive systems
- Robotics
- Mechanical engineering
- Automation mechatronics
- Medical technology
- Packaging and Printing
- Aerospace
- Equipment construction machinery
- Railway technology

■ **HELUTEC® – SERIES 723**  
HYBRID-CONNECTOR WITH BUS MODUL

Full speed ahead - with six signal contacts plus one quadax element. The latter provides for fast Industrial Ethernet (CAT 5) connections in real time mode and opens completely new possibilities with its ready-to-assemble, separately shielded Ethernet element. When daisy-chaining decentrally controlled servo motors for example, it is possible to run 850 VDC. Therefore the super-hybrid connector size M23 can also handle 30 A of current and a wire cross section up to 4.0 mm<sup>2</sup>.

The superior technical data speak for themselves as well as the many versions that are available: HELUTEC®-Serie 723 for all common flange and screw-in versions. No matter if it is a straight, angled or continuously rotating connector housing - this connector with patented HELUTEC® system is the new star on the horizon for application in automation technology.

Notes:

Lightning fast data transfer with a numerous field bus systems.

## ■ HELUTEC® – SERIES 615 / 915 THE ULTRA-FLAT DEVICE CONNECTOR

Small in size yet great in performance: The system impresses with high performance in small format.

Only one mounting hole is required to realize a combination of power and signal connection or power and bus connection on a small motor. The optimal partition of connector lid and connector housing and the therefore available large assembly space makes it easier than ever: Mechanical as well as colour codings provide additional safety. Except for crimping the system requires no special tools. In addition, the system remains 300° continuously rotatable after installation.

The single version offers the same characteristics as its big brother and is available as signal or power connector. Thus it is perfectly suitable for miniaturized applications, where space is critical and room for cabling limited. There is no easier way to establish save connections today.

Properties:

- **EMC**
- **IP 66/67**
- **20G-**  
Vibration-resistant
- **UL** <sup>®</sup> **US**

Technical data, please see selection table for signal and power / hybrid on page 519.

# ■ HELUTEC® – SERIES 926

## A PLASTIC CONNECTOR FOR STAGE AND LIGHTNING

Curtains up - for the series 926 and for everybody who stands in the limelight treading the boards. These connectors are a shining example for an innovative, reliable and easy to use plastic connector.

Safety is a top-priority: Lightning and stage technicians must be protected from electric shock when handling cables and equipment.

The solid plastic design, flame retardant according to UL 94 VO and the modern connection method with a 'one hand push-pull mechanism' point the way into the future. Connectors are also clearly coded facilitating fast and intuitive handling.

Thanks to its high protection classification of IP66/67 and with outstanding 630 V rated voltage and 66 A rated current while ready to take on 16 mm<sup>2</sup> wires - the series 926 is well established for the use in other fields. Offshore and marine applications from oil rigs and wind turbines to any kind of seafaring vessel are only examples for the capabilities of this system. Thus, nobody is standing in the dark on the high seas.

Properties:

- **IP 66/67**

## ■ BASIC FUNCTIONS OF A CABLE GLAND

Cables and wires transfer	<ul style="list-style-type: none"><li>• Energy (current)</li><li>• Signals and data (current, voltage, light)</li></ul>
Cable protection	If a wire has to be connected in a housing, the housing must have a protective lead-through. Otherwise, there is the risk that the wire could be damaged in case of movement.
Strain relief	A wire is moving more or less - during installation or in long-term use. Important is the tensile load protection. The movements may be either constant or intermittent. Therefore, a cable gland with strain relief is necessary. Strain reliefs are described in EN 50262. A differentiation is made between retention, strain relief A and strain relief B. Generally, cable glands have strain relief A.
Protection classification	The lead-through in the wall of the housing must be sealed. This is described by the protection classification IP. The cable glands presented here have protection classification IP68, 5 bar. The 6 stands for "no dust penetration", the 8 stands for "protected when permanently submerged in water" - this is tested at a water pressure of 5 bar (corresponds to 50 m depth) for a duration of 30 min.
Seal with insert	A seal is compressed by tightening the cap nut. A particularly high quality seal and strain relief are achieved.
Seal with clamping plates	When the cap nuts are screwed tight, lamellae press against the moulded seal - the wire is thereby sealed and the strain is relieved. The particular advantage of the clamping plate is that they make a large clamping range possible, to allow for different wire diameters.
Resistance	Different applications demand different degrees of resistance. Plastic cable glands made of Polyamide 6 can be used at a temperature range from -20°C to +100°C, they are abrasion and impact resistant, and withstands hydrocarbons/fuels and cleaning agents. Stainless steel cable glands are suitable for heavy-duty use - they are watertight and resistant to a large number of disinfectants used in food production. Brass glands are used when a long-lasting metal gland is required. Cable glands for electromagnetic compatibility (EMC) are made of brass.
Compact design	<ul style="list-style-type: none"><li>• No disassembly during final assembly. Simply loosening the cap nuts.</li><li>• No losing components</li><li>• Quick assembly</li></ul>
Standard EN 50262	Cable glands are produced and tested according to the standard EN 50262. This stipulates the dimensions of the connection threads ('metric connection thread') as well as a series of safety-relevant parameters, e.g. strain relief. Cable glands are also available with another threaded connection (PG, NPT etc.).
RoHS	Due to the directive 2002/95/EG environmental-relevant standards for electrical and electronic components and devices are generated. This is known as RoHS for short: Restriction of the use of certain hazardous substances in electrical and electronic equipment The use of heavy metals (lead, cadmium, etc.) and a number of other hazardous substances is forbidden.

## ■ INSTALLATION NOTES - CABLE GLANDS

Disassembly of the glands	HELUTOP® HT, HSK, Helufast, UNI-DICHT, KVA, SD is not necessary – provided that the cap nut is applied in such a way as to allow smooth running, there is no problem with subsequent insertion of the cable.
Screwing in	When screwing, observe the necessary tightening torque. If only one through-hole without thread is available, a lock nut must be used; exception are the threadless cable glands.
Protection classification	In order to achieve the desired protection classification even when working with an unfavourable surface, it may be necessary to use an O-ring or a connection thread gasket. To ensure a consistently high-quality seal, we recommend re-tightening the gland some time after assembly.
Lead through cable - turn cap nut - that's all there is to it!	

# ■ APPROVALS HELUTOP® HT

# ■ IP-PROTECTION CLASSIFICATION

## Definition of IP-Code Protection classification acc. to EN 60529

The IEC 60529 „Protection classifications using enclosure (IP-Code)“ provides a system for classifying the protection ratings of electrical operating materials by enclosure. This standard defines terms for the protection classifications by enclosure concerning:

- Protection of persons against access to dangerous parts inside the enclosure
- Protection of operating material inside the enclosure against ingress by solid foreign substances
- Protection of operating material inside the enclosure against damage by the ingress of water

Protection level against solid foreign bodies			Protection level against water		
First number	Short description	Definition	Second number	Short description	Definition
0	Not protected	The object sensor, a 50 mm ball, must not fully penetrate.	0	Not protected	Vertically falling droplets must not have a damaging effect.
1	Protected against solid foreign bodies of 50 mm diameter and larger	The object sensor, a 12.5 mm ball, must not fully penetrate.	1	Protected against dripping water	Vertically falling droplets must not have a damaging effect if the enclosure is tilted by an angle of up to 15° on both sides of the perpendiculars.
2	Protected against solid foreign bodies of 12.5 mm diameter and larger	The object sensor, a 2.5 mm ball, must not penetrate at all.	2	Protected against dripping water if the enclosure is tilted by up to 15°.	Water sprayed at both sides of the perpendiculars at an angle of up to 60° must not have a damaging effect.
3	Protected against solid foreign bodies of 2.5 mm diameter and larger	The object sensor, a 2.5 mm ball, must not penetrate at all.	3	Protected against spray water	Water sprayed at both sides of the perpendiculars at an angle of up to 60° must not have a damaging effect.
4	Protected against solid foreign bodies of 1.0 mm diameter and larger	The object sensor, a 1.0 mm ball, must not penetrate at all.	4	Protected against spray water	Water sprayed against the enclosure from one direction must not have a damaging effect.
			4K	Protected against spray water with high pressure	Water sprayed against the enclosure from any direction at increased pressure must not have any damaging effects. (Only applies to road vehicles according to DIN 40 050 Part 9)
5	Dust protection	Dust penetration is not prevented completely. The amount of penetration, however, must not impair the function or safety of the device.	5	Protected against	Water sprayed against the housing in a strong jet from every direction must not have a damaging effect.
6	Dust protection	No dust penetration	6	Protected against strong hose water	Water sprayed against the housing in a strong jet from every direction must not have a damaging effect.
			6K	Protected against strong hose water with high pressure	Water sprayed against the housing with high pressure from one direction must not have a damaging effect. (Only applies to road vehicles according to DIN 40050 Part 9)
			7	Protected against the effect when temporarily submerged under water	The volume of penetrating water must not have a damaging effect when the housing is temporarily submerged under water at a certain pressure.
			8	Protected against the effect when permanently submerged under water	The volume of penetrating water must not have a damaging effect when the housing is permanently submerged under water at a certain pressure.
			9K	Protected against the effect of water from high-pressure cleaners.	Water sprayed against the housing under increased pressure from one direction must not have a damaging effect. (Only applies to road vehicles according to DIN 40050 Part 9)
For example: Letters IP 65			First index: Protection against contact and ingress by foreign bodies Second index: Protection against liquid		

## ■ DESCRIPTION OF FIRE PROTECTION ACC. TO UL 94

### Fire protection HB

In the horizontal combustion test, the material combusts slowly. Therefore, the combustion speed must not exceed 3 inch/min to 3 mm wall thickness and 1,5 inch 7 min at over 3 mm wall thickness. Materials exceeding this combustion speed are not UL listed.

### Fire protection V2

In the vertical combustion test, the material must self-extinguish after an average of 25 seconds (no single values over 30 seconds). Material drips can ignite wool placed underneath it. The afterglow, however, must not exceed 60 seconds.

### Fire protection V1

In the vertical combustion test, the material must self-extinguish after an average of 25 seconds (no single values over 30 seconds). By contrast, any drips must not ignite the wool. The afterglow must not exceed 30 seconds.

### Fire protection V0

In the vertical combustion test, the material must self-extinguish after an average of less than 5 seconds (no single values over 10 seconds). Eventually, any drips must not ignite wool and the afterglow must not exceed 30 seconds.

# ■ SIZE COMPARISON AND METRIC/PG/NPT/BSP INSTALLATION DIMENSIONS

## x Metric long thread acc. to EN 60423

Nominal size	Outer diameter	Through-hole
M12x1,5	12,0	12,5
M16x1,5	16,0	16,5
M20x1,5	20,0	20,5
M25x1,5	25,0	25,5
M32x1,5	32,0	32,5
M40x1,5	40,0	40,5
M50x1,5	50,0	50,5
M63x1,5	63,0	63,5

## PG – Long thread acc. to DIN 40430

Nominal size	Outer diameter	Through-hole
PG7	12,5	12,7
PG9	15,2	15,4
PG11	18,6	18,8
PG13,5	20,4	20,6
PG16	22,5	22,7
PG21	28,3	28,5
PG29	37,0	37,2
PG36	47,0	47,2
PG42	54,0	54,2
PG48	59,3	59,5

## American tube thread NPT (conical)

Nominal size	Outer diameter	Through-hole
1/4"	13,616	
3/8"	17,055	
1/2"	21,223	
3/4"	26,568	
1"	33,227	
1 1/4"	41,984	
1 1/2"	48,053	
2"	60,091	
2 1/2"	72,699	
3"	88,608	
3 1/2"	100,013	

## Gas tube thread BSP (British Standard Pipe)

Nominal size	Outer diameter	Through-hole
1/4"	13,157	13,4
3/8"	16,662	17,0
1/2"	20,955	21,3
5/8"	26,441	26,8
1"	33,249	33,7
1 1/4"	41,910	42,2
1 1/2"	47,803	48,3
2"	59,614	60,2
2 1/2"	75,184	75,5
3"	87,884	88,5
3 1/2"	100,330	101,0
4"	113,030	114,0

## ■ SIZE COMPARISON AWG/MM

AWG No.	Cross-section	Diameter mm
500	253	17,96
350	177	15,03
250	127	12,07
4/0	107,2	11,68
3/0	85,0	10,40

## ■ INSTRUCTIONS FOR ASSEMBLY OF CABLE LUGS AND JOINTS – GENERAL

1. The measurements of the cable lugs/joints as well as their cross-section assignment have to be taken from the catalogue.
2. The end of the cable has to be cut right-angled to the joint and to be stripped ca. 10 % corresponding to the length of the cable lug receptacle. (The receptacle elongates a bit during the compression)
3. The wire ends have to be cleaned thoroughly of dirt and oxide rests prior to the compression. Sector wires have to be rounded.
4. The wire is pushed as far as it will go in the cable lug receptacle, or rather to the middle of the joint.
5. Prior to the compression it has to be checked if the wire and the cable lug, or rather the joint, have the same cross-section marking and match according to the catalogue.
6. It has to be detected if the compression tool is ready for the montage with the right compression insert.
7. The compression process, with cable lug and joint, happens from the end of the cable in the direction of the end of the receptacle (see sketch).

The number of compressions is based on the following tables.

# ■ COMPRESSION INSTRUCTION

Min. number of required compressions while manufacturing HELU-S-RK-tubular cable lugs and HELU-S-SV-compression joints (WM-compression):

Cross-section in mm	Compression amount x width	HWW 6/50 907612	HWW 10/120 907613	HMPi 20 907614	HHPi 20 908286	HAP 60-2 908494
6	1 x 5 mm					
	1 x 7 mm			•	•	•
10	1 x 5 mm	•	•

## NOTES

### Prices

Prices are valid from 01. April 2016. Errors excepted. All prices are subject to change and without obligation

### Technical modifications

© HELUKABEL® GmbH Hemmingen

Dimensions and specifications may change without prior notice. Consequently all illustrations, numerical data, etc. are provided without guarantee. Colour deviations between photos and delivered goods cannot be avoided. Reproduction or duplication of the text and illustrations, in whole or in part, remain reserved. The transfer of copyrights always requires the written consent of HELUKABEL® GmbH. Our General Terms of Delivery and Payment, which can be viewed at [www.helukabel.com](http://www.helukabel.com), apply.

### Length markings

The length marking, which cannot be calibrated, is an aid, e.g. for easy material allowance determination or for determination of the length remaining on the drum. Deviation of the line length shown by the marking is up to 1%. Incomplete length markings or length markings missing on sections, deviations of the cable length shown by the length marking do not substantiate any legal obligation whatsoever. Only use calibrated measurement devices to determine line length.

### Safety notice

The cables and wires described in the catalog are produced in accordance with national and international standards, as well as plant standards; application safety, as stipulated in the safety directives, standards, and statutory regulations, as amended, is provided. Following proper installation and usage guidelines, the possibility of product-specific dangers can be excluded. For each product this catalog describes general information for use. Independent of the above, the applicable DIN VDE specifications apply. Installation and processing must only be executed by qualified electricians.

### VDE approval

„Extracts from DIN standards with VDE classification are reproduced for the registered limited press run via permit no. 392.013, issued by Deutsches Institut für Normung e.V. [German Institute for Standardization] and VDE Verband der Elektrotechnik Elektronik Informationstechnik e.V. [Institute of Electrical and Electronics Engineers]. Any further reproduction or printing of these materials is subject to a specific permit. The versions of the standards with the most recent issue data are binding for the application thereof. These versions can be obtained from VDE VERLAG GMBH, Bismarckstr. 33, 10625 Berlin, [www.vde-verlag.de](http://www.vde-verlag.de).“

**Our General Terms of Delivery and Payment, which can be viewed at [www.helukabel.com](http://www.helukabel.com), apply**
