CONFIDENCE – (noun) full trust, belief in the powers, trustworthiness, reliability.

Your line runs 24/7 and you need the “confidence” that your laser continues to mark your product or package — that’s where Telesisis lives! For over 30 years, we’ve built “confidence” with the bluest of blue chips around the world. Companies you might know like GM, Chrysler, Honda, J&J and hundreds more!

Talk about confidence—Telesisis can not only offer the latest in laser technology and diverse wavelengths to fit your application, but you can find comfort in a turnkey solution with the support and service of the premier marking and traceability company in the world. At TELESIS, Customer Service is an ATTITUDE, not just a department!

flexible solutions for your packaging needs

Consult with the Experts

No one has more experience in marking/coding and traceability on static or “Mark-On-The-Fly” applications.

With thousands of marking systems installed in packaging, automotive, medical and aerospace applications around the world, TELESIS is the expert — static or dynamic at rates over 1,000 feet per minute!

Flexible solutions with lasers to fit your application — custom or standard, and the expert team with a packaging background second to none.
