ISO 9001-2008

Supplier ID 708414

Certificate No. FS 587216

Company Reg No. 08108278

V.A.T Reg No. 122 5697 15

A photograph of an industrial facility. In the foreground, there is a concrete walkway with a metal railing. To the left, a large steel structure with a lattice of beams is visible. In the center, a large, cylindrical stainless steel tank stands on a concrete base. To the right of the tank is a small, single-story building with a white door and a window. The background is filled with green trees and foliage. The sky is overcast.

Want a Company that takes pride in their work?

**WELCOME TO TRAVERS WELDING
& FABRICATION LTD**

What ever happened to that old quote?.....

“Made in Great Britain”

It's about time it came back!!!

At Travers Welding & Fabrication Ltd, we have more than 90 years joint experience in many fields of welding & fabrication work. Our vast experience enables us to offer new & existing customers a wealth of knowledge in the manufacture of their products, new and old. It also enables us to bring new production methods into the manufacturing process, saving on time and reducing costs.

30 1 2005

Support British Manufacturing

We have the experience, energy & determination to help you manufacture and develop your products successfully and can cope with batch sizes from a one off special prototype, through to medium or large volume production runs. We are here to help you complete your products, from start to finish, and to deliver you exactly what you want & when you want it.

At Travers Welding & Fabrication Ltd, a family run business with 4 family members involved, we consistently continue to deliver exceptional quality welding & fabrications & supplying skilled sub-contract labour, partnering many local engineering, manufacturing & public sector Companies, in the Wiltshire, Somerset & Gloucestershire arrears and further afield. With over 90 years joint experience in engineering, ranging from light engineering, medium engineering to heavy engineering, we have always strived to give our customers the very best service available.

“Quality Workmanship”

From the early years of offering only skilled subcontract labour to local engineering Companies, we have formed a close relationship with many engineering & manufacturing Companies, over a wide section of industries & over a wide arrear, to offer our own welding & fabrication services both in-house and on site. Our energy & determination, along with our trust & reliability comes second to none.

Coil Pipe Trailer

Bespoke Aluminium Cover

Acting as partners to our customers rather than simply a supplier, we are committed to forming long-term customer relationships based on trust and reliability.

**“With over 90 years joint
experience in engineering.”**

Our Philosophy;

Not only to do our best, but to ensure our customer is completely satisfied by the service they have received.

Good communication with the Customer, is a must.

All Customers, however large or small, are treated with equal importance.

We always strive to provide “five star” quality service in everything we do.

We are honest, forthright and operate with integrity.

**“Our energy & determination,
along with our trust &
reliability comes second to
none.”**
